Although we strive to ensure that our rules are perfect, sometimes mistakes do creep in, or the intent of a rule isn’t as clear as it might be. These documents collect amendments to the rules and present our responses to players’ frequently asked questions. As they’re updated regularly, each has a version number; when changes are made, the version number will be updated, and any changes from the previous version will be highlighted in magenta. Where a version number has a letter, e.g. 1.1a, this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

Q: If I use the Might of Heroes psychic power to bolster the Toughness characteristic of a model in a unit, which Toughness characteristic should be used if my opponent subsequently shoots the unit whilst the psychic power is still in effect?
A: In this case, use the Toughness characteristic of the majority of the models in the unit when the enemy makes wound rolls against it. If there is no majority, you may choose which of the values is used.

A: No. This (and all similar ‘other wargear’ found in the points values section) must be paid for in the same way as a model’s weapons.

A: Yes.
