

# CODEX: GREY KNIGHTS

## Indomitus Version 1.2

These documents collect amendments to the rules and present our responses to players' frequently asked questions. Often these amendments are updates necessitated by new releases or community feedback. At other times, these amendments are errata designed to correct mistakes or add clarity to a rule that is not as clear as it might be.

As they're revised regularly, each of these documents has a version number; where a version number has a letter, e.g. 1.1a, this means it has had a local amendment, only in that language, to clarify a translation issue or other minor correction. When a document is revised, the version number will be incremented and new updates will be highlighted in **blue**, while new errata and FAQs will be highlighted in **magenta**.

**Designer's Note:** *If you are playing a matched play game, or a game that otherwise uses points values, please use the points values for Grey Knights units presented in the Munitorum Field Manual 2021 Mk II.*
