

BATTLETOME: SLAVES TO DARKNESS

DESIGNERS' COMMENTARY, APRIL 2022

The following commentary is intended to complement *Battletome: Slaves to Darkness*. It is presented as a series of questions and answers; the questions are based on ones that have been asked by players, and the answers are provided by the rules writing team and explain how the rules are intended to be used. The commentaries help provide a default setting for your games, but players should always feel free to discuss the rules before a game, and change things as they see fit if they both want to do so (changes like this are usually referred to as 'house rules').

Our commentaries are updated regularly; when changes are made, any changes from the previous version will be highlighted in **magenta**. Where the date has a note, e.g. 'Revision 2', this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

Q: Can **ARCHAON** be affected by the *Aura of Chaos* battle trait from other **SLAVES TO DARKNESS HEROES** that have a different *Mark of Chaos* keyword?

A: No.

Change the first sentence to:

'If a **SLAVES TO DARKNESS HERO** has a *Mark of Chaos* keyword, that **HERO** has one of the following *Aura of Chaos* abilities.'

Page 69 – Lore of the Damned

Page 76 – Host of the Everchosen, *Dark Prophecy*

Change to:

'You can use this command ability once per turn at the start of your hero phase if **ARCHAON** is on the battlefield. If you do so, roll a dice and keep the result hidden from your opponent beneath an opaque container, such as a cup. At the start of the next battle round, before players determine who has the first turn, you must reveal the result. On a 1-3 your opponent must take the first turn of that battle round. On a 4-6 you must take the first turn of that battle round.'

Pages 80-83 – Path to Glory

These Path to Glory campaign rules are not compatible with the latest version of the Path to Glory rules from the Core Book. You can still use them to run a 'classic' Path to Glory campaign, or you can use the rules from the Core Book to run a 'modern' Path to Glory campaign.

Eightfold Doom-Sigils are icons of Chaos in all its glory, blazing symbols of pure ruin. To fall in the presence of such a sorcerous construct is to be damned, for these lingering spells hungrily suck souls into the Realm of Chaos for the gods to feast upon, and a measure of this siphoned power is offered to those devoted who fight in the icon's shadow.

ENDLESS SPELL WARSCROLL

EIGHTFOLD DOOM-SIGIL

SUMMONING: This endless spell is summoned with a spell that has a casting value of 5 and a range of 6". If successfully cast, set up this endless spell wholly within range and visible to the caster, and more than 1" from all models, other endless spells and invocations. Only **SLAVES TO DARKNESS WIZARDS** can attempt to summon this endless spell.

Empowered by Atrocity: *The souls of those slain in the presence of an Eightfold Doom-Sigil are absorbed by the magical manifestation, feeding the Dark Gods' eternal hunger and inspiring those mortal servants who fight nearby to battle on – even as their own lives are offered in tribute.*

Keep track of the number of models that are slain within 12" of this endless spell each turn. At the end of each turn, roll a dice for each model that was slain within 12" of this endless spell during that turn. For each 3+, the player whose turn is taking place must pick 1 **SLAVES TO DARKNESS** unit wholly within 18" of this endless spell. Add 1 to the Attacks characteristic of that unit's melee weapons (excluding those of its mounts) until that player's next hero phase. A unit cannot benefit from this ability more than once per turn.

Darkfire Daemonrifts are eldritch portals torn ajar by the darkest of incantations. Once the veil has been sundered the raw magic seeping from the Realm of Chaos forms an opening for the horrors beyond to vent their spite, widened and empowered further by spellcraft that draws upon the essence of Chaos.

ENDLESS SPELL WARSCROLL

DARKFIRE DAEMONRIFT

SUMMONING: This endless spell is summoned with a spell that has a casting value of 7 and a range of 9". If successfully cast, set up this endless spell wholly within range and visible to the caster, and more than 1" from all models, other endless spells and invocations. Only **SLAVES TO DARKNESS WIZARDS** can attempt to summon this endless spell.

Billowing Energies: *From the maw of a Darkfire Daemonrift, foul predators from beyond unleash streams of Chaotic energy on their hapless victims.*

After this endless spell has moved, roll a dice for each unit that has any models it passed across and for each other unit within 1" of it at the end of its move. On a 2+, that unit suffers D3 mortal wounds.

PREDATORY: This endless spell is a predatory endless spell. It can be moved up to 9" and can fly.

Fuelled by Sorcery: *A Darkfire Daemonrift absorbs magical power, widening further and expelling more powerful gouts of ruinous energy as it hungrily devours arcane energies.*

Add 1 to the number of mortal wounds caused by this endless spell for each other endless spell within 12" of this endless spell after it has moved.

REALMSCOURGE RUPTURE

Even by the standards of Chaos sorceries, Realmscourge Ruptures are not subtle weapons. When the necessary magical power has been channelled and released by a tribal shaman, the land itself writhes in the grip of Chaos, sharpened spikes surging forth like an accursed tidal wave to overwhelm anything in their path.

SUMMONING: This endless spell is summoned with a spell that has a casting value of 7 and a range of 9". If successfully cast, set up this endless spell wholly within range and visible to the caster, and more than 1" from all models, other endless spells and invocations. Only **SLAVES TO DARKNESS WIZARDS** can attempt to summon this endless spell.

PREDATORY: This endless spell is a predatory endless spell. It can be moved up to 9" and can fly. When this endless spell is moved, it must move in a straight line in the direction in which its spikes are pointing.

Debilitating Shockwave: *The vicious spikes that erupt from an onrushing Realmscourge Rupture not only impale any unfortunate enough to be struck by them, but also send those nearby staggering through the tremors that rock the tortured earth.*

After this endless spell has moved, roll a dice for each unit that has any models it passed across and for each other unit within 1" of it at the end of its move. On a 2+, that unit suffers D3 mortal wounds and its Move characteristic is halved until the end of the battle round.

Archaon the Everchosen is armed with the Slayer of Kings.

WIZARD: This unit can attempt to cast 2 spells in your hero phase and attempt to unbind 2 spells in the enemy hero phase.

WARMASTER: If this unit is included in your army, it is treated as a general even if it is not the model picked to be the army's general. In addition, this unit can be included in a Blades of Khorne, Disciples of Tzeentch, Maggotkin of Nurgle or Hedonites of Slaanesh army. If you do so, you can still use the army's allegiance abilities even though this unit is not from the army's faction; however, this unit does not benefit from them.

FLY: This unit can fly.

MOUNT: This unit's mount, Dorghar, is armed with Monstrous Claws, Lashing Tails and Three Heads.

The Armour of Morkar: *Archaon's armour is inscribed with powerful sigils of warding.*

This unit has a ward of 4+ against mortal wounds. In addition, for each unmodified ward roll of 6, you can pick 1 enemy unit within 3" to suffer 1 mortal wound that cannot be negated.

By My Will: *All Slaves to Darkness recognise Archaon's supreme authority and fear his wrath more than any foe should they fail him.*

This is a command ability that this unit can issue at the start of the combat phase. Another friendly **CHAOS** unit must receive it (this unit cannot issue this command to itself). Until the end of that phase, each time a model in the receiving unit is slain, it can fight.

The Crown of Domination: *This forbidding helm exudes a palpable aura of menace.*

Add 2 to the Bravery characteristic of friendly **CHAOS** units wholly within 12" of this unit. In addition, subtract 2 from the Bravery characteristic of enemy units while they are within 12" of this unit.

The Eye of Sheerian: *Ripped from the corpse of the Chaos Dragon Flamefang, this ancient treasure forewarns Archaon of events yet to pass.*

Once per battle, at the start of your hero phase, you can say that Archaon will use the Eye of Sheerian. If you do so, subtract 1 from hit rolls for attacks that target this unit until your next hero phase.

The Everchosen: *The Ruinous Powers shelter their champion from hostile enemy magics.*

Each time this unit is affected by a spell or endless spell, you can roll a dice. On a 4+, ignore the effect of that spell or that endless spell on this unit.

The Slayer of Kings: *This ancient daemonblade thirsts for the souls of champions and warlords.*

Each time this unit fights, if the unmodified wound roll for 2 or more attacks that target the same enemy **HERO** with the Slayer of Kings is 6, that **HERO** is slain.

Three-headed Titan: *The greater daemons consumed by Dorghar imbue the steed with unlimited power.*

At the start of your hero phase, you can say that Dorghar will draw upon his daemonic might. If you do so, choose 1 of the following effects:

Filth-spewer: *Dorghar's Nurglesque head vomits a cascade of half-digested warriors and bile.*

Pick 1 enemy unit within 12" of this unit and roll a dice. On a 3+, that unit suffers D3 mortal wounds.

Skull-gorger: *Dorghar's Khornate head devours the skulls of prey to invigorate his master.*

You can heal up to D3 wounds allocated to this unit.

Spell-eater: *Dorghar's Tzeentchian head consumes eldritch energies from nearby spells.*

Pick 1 endless spell within 18" of this unit; that endless spell is dispelled.

Warlord Without Equal: *Archaon's mastery of war is near unparalleled, and under his command, the Slaves to Darkness are an unstoppable force.*

If this unit is on the battlefield at the start of your hero phase, you receive 1 extra command point.

Archaon is the Everchosen, the favoured warlord of the Dark Pantheon. From atop Dorghar, the monstrous Steed of the Apocalypse, Archaon commands his legions with an iron fist, his deadly skill and unholy powers sealing the doom of entire armies.
