

BATTLETOME: OGOR MAWTRIBES

DESIGNERS' COMMENTARY, DECEMBER 2022

The following commentary is intended to complement *Battletome: Ogor Mawtribes*. It is presented as a series of questions and answers; the questions are based on ones that have been asked by players, and the answers are provided by the rules writing team and explain how the rules are intended to be used. The commentaries help provide a default setting for your games, but players should always feel free to discuss the rules before a game, and change things as they see fit if they both want to do so (changes like this are usually referred to as 'house rules').

Our commentaries are updated regularly; when changes are made, any changes from the previous version will be highlighted in **magenta**. Where the date has a note, e.g. 'Revision 2', this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

Q: If I pick the Ex-mercenary command trait, do Blackpowder's Buccaneers gain the Battleline battlefield role?

A: Yes.

Page 82 – Battle Tactics, Eat Your Fill

Change to:

'You complete this tactic at the start of the combat phase if every friendly **OGOR** unit on the battlefield is eating.'

Pages 96, 98, 99, 100 – Huskard on Stonehorn/Huskard on Thundertusk/Stonehorn Beastriders/Thundertusk Beastriders, Reel 'Em In

Change the rules text to:

'If an attack made with a Chaintrap scores a hit on an enemy **MONSTER** unit, if that **MONSTER** unit is not destroyed and not already snagged (see below), after that attack has been resolved, you can roll a dice. On a 4+, that **MONSTER** unit is snagged until the start of your next shooting phase. While a **MONSTER** unit is snagged and the unit that snagged it is on the battlefield, each time that **MONSTER** unit makes a move, it must finish that move at least as close to the unit that snagged it as it was at the start of the move.'
