DESCRIPTION

A Bonegrinder Gargant is a single model armed with a Gargantuan Club, Thunderous Stomp and Hurled Boulder.

ABILITIES

I'll Bite Your Head Off!: A Bonegrinder Gargant's cavernous mouth makes for an especially deadly weapon, should it fancy a light snack during a battle.

At the start of the combat phase, you can pick 1 enemy model that has a Wounds characteristic of 4 or less and that is within 3" of this model, and roll a dice. On a 6, that model is slain.

Jump Up and Down: Bonegrinder Gargants love nothing more than to pound their enemies into paste by jumping up and down on their victims with their massive feet.

At the end of the combat phase, you can pick 1 enemy unit within 1" of this model. If you do so, roll a dice. If the dice roll is equal to or less than the number of models in that unit, that unit suffers D6 mortal wounds.

Longshanks: Such is its vast size, a single step made by a Bonegrinder Gargant can cover an astonishing distance.

This model is eligible to fight in the combat phase if it is within 6" of an enemy unit instead of 3", and it can move an extra 3" when it piles in.

Timber!: Should a gargant fall, it will likely crush anything in its path.

If this model is slain, before removing the model from the battlefield the players must roll off. The player who wins the roll-off picks a point on the battlefield 3" from this model. Each unit within 2" of that point suffers D3 mortal wounds. This model is then removed from the battlefield.

If this model is slain, before this model is removed from play, the players must roll off. The player who wins the roll-off picks a point on the battlefield 4" from this model. Each unit within 3" of that point suffers D6 mortal wounds. This model is then removed from play.

Fungoid Squig Explosion: *When these massive creatures meet their death, their body ripples with a build-up of fungal spore gas, and with an ear-splitting pop they burst into a mass of smaller Squigs.*

If this model is slain, before removing the model from the battlefield, roll a dice for each enemy unit within 3" of it. On a 2+, that unit suffers D3 mortal wounds. After allocating all of the mortal wounds to all of the units affected by this ability, you can add 1 **SQUIG HERD** unit of up to 5 models to your army. Set up the **SQUIG HERD** unit wholly within 9" of this model and more than 3" from any enemy models. This model is then removed from the battlefield.

DESCRIPTION

A Dread Saurian is a single model armed with Gargantuan Jaws, Raking Claws and an Armoured Tail.

ABILITIES

Arcane Glyphs: Dread Saurians go to war clad in techno-arcane glyph-plates through which a slann can channel power to ward off enemy sorceries.

Each time this model is affected by a spell or endless spell, you can roll a dice. If you do so, on a 6+, ignore the effects of that spell or endless spell on this model. Add 2 to the roll if this model is within 12" of a friendly SLANN.

Obliterating Charge: A Dread Saurian's sheer scaled mass is a potent weapon in its own right.

After this model makes a charge move, roll a dice for each enemy unit within 1" of this model. On a 2+, that unit suffers D3 mortal wounds if it is a MONSTER or D6 mortal wounds if it is not a MONSTER.

Death Throes: Even a mortally wounded Dread Saurian cannot be discounted, for it will lash out violently before meeting its end.

If this model is slain, before removing it from the battlefield, roll a dice for each enemy unit within 3" of it that is not a MONSTER. On a 4+, that unit suffers D3 mortal wounds.

Terror: This horrific monstrosity strikes fear deep into the hearts of its enemies.

Subtract 1 from the Bravery characteristic of enemy units if they are within 3" of any friendly units with this ability.

Roar of Ruin: The deafening roar of a Dread Saurian can drive even the most stout-hearted warriors into panicked flight.

Once per battle at the start of the battleshock phase, you can say this model will use its Roar of Ruin. If you do so, halve the Bravery characteristic of enemy units (rounding up) that are within 12" of this model until the end of that phase.

Designer's Note: If a unit is affected by both the Roar of Ruin and Terror abilities, its Bravery characteristic is first halved (rounding up), and then 1 is subtracted from it.

DESCRIPTION

A Soulfeaster Keeper of Secrets is a single model armed with an Elegant Greatblade, Impaling Claws and a Sinistrous Hand.

ABILITIES

Dark Temptations: Few can resist the temptations whispered by a Keeper of Secrets.

At the start of the combat phase, you can pick 1 enemy **HERO** within 3" of this model and ask your opponent if they wish that **HERO** to accept temptation. If they refuse, that **HERO** suffers D3 mortal wounds. If they accept, add 1 to hit rolls for attacks made by that **HERO**. Then, at the start of the next combat phase, roll a dice. On 1-3, that **HERO** no longer receives this modifier to their hit rolls. On 4-6, that **HERO** is slain.

Delicate Precision: A Keeper of Secrets attacks their foes with a dazzling array of exquisitely measured blows.

If the unmodified wound roll for an attack made with a melee weapon by this model is 6, that attack inflicts a number of mortal wounds equal to the Damage characteristic of the weapon used for the attack and the attack sequence ends (do not make a save roll).

Sinistrous Hand: Reaching out with their long-nailed fingers, the Keeper of Secrets rips the heart from their dying victim's chest and consumes the still-beating organ.

If this model is armed with a Sinistrous Hand, at the end of the combat phase, if any enemy models were slain by wounds inflicted by this model's attacks in that combat phase, you can heal D3 wounds allocated to this model. If any enemy **HEROES** were slain by wounds inflicted by this model's attacks in that combat phase, you can heal D6 wounds allocated to this model instead.

Soulfeaster Tendrils: The cruel tendrils that snake from the rear of a Soulfeaster Keeper of Secrets' head are the means through which it feeds on sensation, stabbing into the mind of a chosen adversary and drinking deep their agony and desire.

At the start of the combat phase, you can pick 1 enemy **HERO** within 3" of this model and roll 3D6. If the roll is greater than that model's Bravery characteristic, you gain D3 depravity points, and 1 is subtracted from hit rolls for attacks made by that **HERO** until the end of that phase.

MAGIC

This model is a **WIZARD**. It can attempt to cast 2 spells in your hero phase and attempt to unbind 2 spells in the enemy hero phase. It knows the Arcane Bolt, Mystic Shield and Cacophonic Choir spells.

ABILITIES

Baleglyph Mauls: Etched by Balefiends and imbued with vile magic, a weapon bearing these glyphs brings withering atrophy to anything it strikes.

Subtract 1 from hit rolls for attacks made with missile weapons that target this model. In addition, roll a dice each time you allocate a mortal wound to this model. On a 5+ that mortal wound is negated.

Unnatural Flesh: Fimir are wholly unnatural creatures whose very flesh twists and writhes, sealing wounds mere moments after they are inflicted.

COMMAND ABILITY

Infernal Iron: Clad in armour blessed by Khorne himself, the air around Skaarac warps and writhes, twisting the winds of magic into an uncontrollable maelstrom.

Subtract 2 from casting rolls for enemy **WIZARDS** while they are within 12" of this model.

Towering Horror: A creature of sheer malice possessing an unquenchable lust for death, Skaarac's very presence shatters the courage of all around him.

Subtract 1 from the Bravery characteristic of enemy units while they are within 12" of this model.

Undying Hate: Should Skaarac's mortal form be slain, it disappears in a torrent of scalding blood and blazing soul-fire.

If this model is slain, before removing the model from play, roll a dice for each enemy model within 3" of this model. On a 4+, that model's unit suffers 1 mortal wound. This model is then removed from play.

COMMAND ABILITY

Call of the Skull Throne: Skaarac's very being is driven by the need to spill blood in Khorne's name. This singular desire overwhelms those around him, lending speed to their limbs as they race towards their foes.

You can use this command ability at the start of your charge phase if this model is on the battlefield. If you do so, you can re-roll charge rolls for friendly **KHORNE** units while they are wholly within 12" of this model in that charge phase.

SKAVEN CLAWLORD

ON BROOD HORROR

The most ostentatious of skaven warlords ride into battle mounted upon foul Brood Horrors. These beasts have grown to their immense size by brutally devouring all of their brood-kin, the twisted forms of which still writhe and claw within their fleshy prison.

MELEE WEAPONS	Range	Attacks	To Hit	To Wound	Rend	Damage

Fangs and Claws	1"	6	3+	3+	-1	2

DESCRIPTION

A Skaven Warlord on Brood Horror is a single model armed with a Warpforged Blade.

MOUNT: This model's Brood Horror attacks with its Fangs and Claws and Prehensile Tail.

ABILITIES

Regenerating Monstrosity: A monstrous masterpiece from the breeding pits of the Clans Moulder, the flesh of a Brood Horror can reknit almost as fast as it can be torn in battle.

In your hero phase, you can heal up to D3 wounds allocated to this model.

Mighty Warlord: The sight of any Warlord riding such an imposing mount does wonders for the uncertain loyalty of the skaven around them.

Add 1 to the Bravery characteristic of friendly **CLANS VERMINUS** units while they are wholly within 13" of any friendly models with this ability.

COMMAND ABILITY

Gnash-gnaw on their Bones: The Warlord ushers forth his minions to gouge, bite and tear at their prey with murderous intensity.

You can use this command ability at the start of the combat phase. If you do so, pick 1 friendly **CLANS VERMINUS** unit wholly within 13" of a friendly model with this command ability. Add 1 to the Attacks characteristic of melee weapons used by that unit in that phase. The same unit cannot benefit from this command ability more than once per phase.

SKIN WOLVES

Creatures of pure nightmare, Skin Wolves are draped in the tattered remains of their human flesh. Their malice and fury are incomparable, and with long-clawed fingers they shred their victims to ribbons and feast upon the remains.

MELEE WEAPONS	Range	Attacks	To Hit	To Wound	Rend	Damage
Teeth and Claws	1"	4	3+	3+	-1	2

DESCRIPTION

A unit of Skin Wolves has any number of models, each armed with Teeth and Claws.

ABILITIES

Bounding Predators: These creatures can move at a frighteningly deadly speed.

This unit can run and still charge later in the same turn.

Terrifying Bloodlust: Skin Wolves have a natural predatory instinct to hunt. With the taint of Chaos running through their veins, this bloodlust is amplified beyond imagining.

If the unmodified hit roll for an attack made by this unit is 6, that attack inflicts 2 hits on the target instead of 1. Make a wound and save roll for each hit.

SQUIG GOBBA

Armies of Moonclan grots use Squig Gobbas as living artillery. The enormous fungoid beasts are prodded and poked until they regurgitate smaller squigs they have devoured, sending them flying into the ranks of the enemy to explode in clouds of acidic spores.

DESCRIPTION

A Squig Gobba is a single model armed with Spit-squigs and a Cavernous Maw.

CREW: This model has a grot crew that attack with their Bashin' Sticks. For rules purposes, the crew are treated in the same manner as a mount.

ABILITIES

Arcing Spit: Once gobbed forth, flailing Spit-squigs soar in an uncharacteristically graceful, saliva-trailing arc before messily splatting into their target.

Add 1 to hit rolls for attacks made with Spit-squigs if the target has 10 or more models.

SKAVEN WOLF RATS

Engineered by the insane masterminds of the Clans Moulder, Wolf Rats are grotesquely mutated attack beasts. Their barbed teeth are capable of piercing armour and crushing bone, and the taste of blood whips them into a vicious frenzy.

MELEE WEAPONS	Range	Attacks	To Hit	To Wound	Rend	Damage
Dagger-long Teeth	1"	2	3+	3+	-1	1

DESCRIPTION

A unit of Skaven Wolf Rats has any number of models, each armed with Dagger-long Teeth.

ABILITIES

Blood-crazed: The scent of fresh blood sends these beasts into madness, their blood-lust rendering them immune to fear.

Do not take battleshock tests for this unit while it is within 3" of an enemy unit.

Snapping Jaws: Speed is a Wolf Rat's greatest attribute, and the power of their charge makes their disease-ridden mouths and razor-sharp teeth even more lethal.

Add 1 to wound rolls for attacks made by this unit if it made a charge move in the same turn.

TROGGOTH HAG

Unlike most of their race, Troggoth Hags are possessed of both arcane powers and a modicum of intelligence. They serve as leaders and envoys of the troggoth tribes, communicating in ways even the most dim-witted of their kin can understand.

5-8	7"	5	3+
9-11	6"	4	3+
12-13	5"	3	4+
14+	4"	2	5+

DESCRIPTION

A Troggoth Hag is a single model armed with Copious Vomit, a Deadwood Staff and Crushing Bulk.

ABILITIES

Hag Regeneration: All troggoths have an innate ability to regenerate even the most grievous of injuries, and in the case of the Troggoth Hag, this trait is augmented further by the arcane energies coursing through her hulking physique.

In your hero phase, you can heal up to D6 wounds allocated to this model.

Spell-spite: A Troggoth Hag carries with her sackfuls of strange fetishes and weird keepsakes, the most cursed of which are used to call down malignant hexes upon those that would dare wield hostile magic against her.

Each time this model successfully unbinds a spell, you can roll a dice; on a 4+ the **WIZARD** that cast that spell suffers D3 mortal wounds.

Terrible Stench: So foul is the dank swamp stench given off by Troggoth Hags that even the hardiest of warriors will retch uncontrollably in their presence.

Subtract 1 from hit rolls for attacks made with melee weapons that target this model.

MAGIC

This model is a **WIZARD**. It can attempt to cast one spell in your hero phase, and attempt to unbind one spell in the enemy hero phase. It knows the Arcane Bolt, Mystic Shield and Hag Curse spells.

Hag Curse: The cackling curses of the Troggoth Hag are insidious and vile, robbing her victims of strength and shackling them with ill fortune.

Hag Curse has a casting value of 7. If successfully cast, pick an enemy unit within 12" of the caster that is visible to them. Until your next hero phase, subtract 1 from hit rolls for attacks made by that unit, and subtract 1 from save rolls for attacks that target that unit.

DESCRIPTION

A Warpfire Dragon is a single model armed with Warpfire, Snapping Jaws and Twisted Claws.

FLY: This model can fly.

ABILITIES

Deadly Demise: Even in their last moments these creatures are deadly, and those arrogant enough to believe they have won victory are soon bloodily corrected.

If this model is slain, before this model is removed from play, roll a dice for each unit within 3" of this model. On a 4+, that unit suffers D3 mortal wounds. This model is then removed from play.

Warpfire: These scintillating flames cause flesh and bone to undergo rapid and grotesque mutations, reshaping those touched into utterly grotesque configurations of their former selves.

Do not use the attack sequence for an attack made with this model's Warpfire. Instead roll a dice. On a 1, nothing happens. On a 2-5, the target unit suffers D3 mortal wounds. On a 6, the target unit suffers D6 mortal wounds.

WARPGNAW VERMINLORD

Warpgnaw Verminlords possess the unique ability to bore gnawholes through reality using their dark magic. Hated and envied in equal measure by their daemonic peers, these secretive beings lead skaven swarms to invade the realms wherever it suits their agendas.

3-4	10"	3				4
5-7	8"	2				3
8-9	6"	1				2
10+	4"	0				1

DESCRIPTION

A Warpgnaw Verminlord is a single model armed with a Prehensile Tail and Gnaw-glaive.

ABILITIES

Protection of the Horned Rat: An eerie sense of watchfulness surrounds this being, and an unholy aura of warding protects them from harm.

Roll a dice each time you allocate a wound or mortal wound to this model. On a 5+, that wound or mortal wound is negated.

Realm Guide: The Warpgnaw Verminlords claim – and none have the courage to gainsay them – that it was they who first bestowed the boon of gnawholes upon the skaven race. Certainly their knowledge of these twisted ways is second to none, allowing them to squirm through the cracks in reality to fall upon their horrified foes.

Instead of setting up this model on the battlefield, you can place this model to one side and say that it is moving through the cracks in reality as a reserve unit.

If you do so, at the end of your movement phase, set up this model wholly within 6" of a **GNAWHOLE** and more than 9" from any enemy models. This counts as this model's move for that movement phase.

Any units moving through the cracks in reality that are not set up on the battlefield before the start of the fourth battle round are slain.

Terrifying: This horrific monstrosity strikes fear deep into the hearts of its enemies.

Subtract 1 from the Bravery characteristic of enemy units while they are within 3" of any models with this ability.

MAGIC

This model is a **WIZARD**. It can attempt to cast two spells in your hero phase, and attempt to unbind two spells in the enemy hero phase. It knows the Arcane Bolt, Mystic Shield and Splinter-screech spells.

Splinter-screech: The Warpgnaw Verminlord gives an atonal shriek that rises in pitch until reality itself shivers, shudders, then cracks asunder.

Splinter-screech has a casting value of 5. If successfully cast, pick 1 enemy model within 12" of the caster, and roll a dice. If the roll is equal to or greater than that model's Wounds characteristic, it is slain.

PITCHED BATTLE PROFILES

The table below provides points, minimum and maximum unit sizes, and battlefield roles for the warscrolls in this Compendium, for use in Pitched Battles. Spending the points listed on this table allows you to take a minimum-sized unit with any of its upgrades. Understrength units cost the full amount of points. Larger units are taken in multiples of their minimum unit size; multiply their cost by the same amount as you multiplied their size. Units that are listed as 'Unique' are named characters and can only be taken once in an army.
