INTRODUCTION

Welcome to the 2021 edition of the Munitorum Field Manual. This book contains the most up-to-date points values that should be used in your matched play games, covering all the factions in Warhammer 40,000.

Since we published the 2020 edition of the Munitorum Field Manual we have released several 9th edition codexes. One of the features of these are that points values for units are presented differently to how they were in previous editions of Warhammer 40,000. We feel that this new system is far simpler and quicker to use, and we wanted to use this edition of the Munitorum Field Manual to reformat the points values for all armies in Warhammer 40,000, so that all players could enjoy the benefits. We have also taken the opportunity to review all our points values, and where necessary, update certain unit and weapon costs.

You can use this book to determine the points (pts) value of each unit in your army. Each entry lists the unit's size (i.e. how many models the unit can contain) and how many points the unit costs. If an entry has a unit cost of 'x pts/model', then the unit costs x points for every model in that unit. You must then add points for each weapon, or item of wargear, that is included in that unit if it is listed in that unit's entry (weapons and wargear not listed in a unit's entry cost no additional points to include in that unit).

The points values listed in this book replace any published previously, and should be used in your matched play games (or

any of your games that are using points values). As with the previous edition of the Munitorum Field Manual, this book contains the points values for every single unit that, at the time of printing, are supported for matched play games, eliminating the need to flip back and forth between two or more books.

I hope that you find the points values presented here easier to use, and we wish you luck on the battlefield.

- Robin Cruddace and
the Warhammer 40,000 Rules Team

SPACE MARINES

HQ

Captain

Unit size.....	1 model
Unit cost.....	85 pts
• Combi-flamer.....	+5 pts
• Combi-grav.....	+5 pts
