

CODEX: ADEPTUS CUSTODES

Indomitus Version 1.1

These documents collect amendments to the rules and present our responses to players' frequently asked questions. Often these amendments are updates necessitated by new releases or community feedback; these can be identified by the presence of an asterisk before the page reference. At other times, these amendments are errata designed to correct mistakes or add clarity to a rule that is not as clear as it might be.

As they're revised regularly, each of these documents has a version number; where a version number has a letter, e.g. 1.1a, this means it has had a local amendment, only in that language, to clarify a translation issue or other minor correction. When a document is revised, the version number will be incremented and new updates will be highlighted in **blue**, while new errata and FAQs will be highlighted in **magenta**.

DESIGNER'S NOTES

WEAPON UPDATES

Several weapon profiles were updated in the 2020 edition of Codex: Space Marines. As a result, where those same weapons appear in this publication, they are updated to match. We have also updated the wording of certain weapons' abilities that would explode or inflict mortal wounds on hit rolls of 1, so that they now only do so on unmodified hit rolls of 1. The weapons in question, and the updated profiles for them, are found at the end of this document, and should be changed wherever they appear in this book

STORM SHIELDS

The rules for storm shields were updated in the 2020 edition of Codex: Space Marines. As a result, wherever the rules for a storm shield appear in this book, they should be replaced with the following:

'Storm Shield: The bearer has a 4+ invulnerable save. In addition, add 1 to armour saving throws made for the bearer.'
