

Armed with the Lantern Astrala, Calthia Xandire leads her fellows in search of Harrowdeep's forgotten secrets. With her comes Dhoraz Giant-fell, who revels in each destructive swing of his hammer; Luxa Stormrider, who lets her proficiency with the bow speak for her; and Luxa's aetherwing companion, Taros.

The models in Xandire's Truthseekers are Calthia Xandire, Dhoraz Giant-fell and Luxa Stormrider. Calthia Xandire is armed with a Broadsword. Dhoraz Giant-fell is armed with a Great Hammer. Luxa Stormrider is armed with a Stormcaller Bow and Bow Stave.

CHAMPION: Calthia Xandire is the unit champion.

COMPANION: This unit is accompanied by the aetherwing Taros, who is armed with a Beak and Talons. Taros must remain within 1" of Luxa Stormrider. For rules purposes, Luxa Stormrider and Taros are treated as a single model.

Blazing Arrows: Luxa Stormrider's rune-etched arrows glow as if they had a molten core.

If the unmodified hit roll for an attack made with this unit's Stormcaller Bow is 6, the target suffers 2 mortal wounds and the attack sequence ends (do not make a wound roll or save roll).

Kinetic Lodestone: Dhoraz Giant-fell has been gifted a kinetic lodestone that can stop a charging foe in their tracks and turn their own momentum against them.

After an enemy unit finishes a charge move within 3" of Dhoraz Giant-fell, roll a dice. On a 3+, that unit suffers D3

mortal wounds. If that unit has a mount or is a **MONSTER**, it suffers 3 mortal wounds instead of D3.

Lantern Astrala: This lantern is a relic of old Azyr capable of dissipating the thickest gloom. Channelling the lambent magical energies of the heavens, it leaves Sigmar's enemies vulnerable to attack.

Once per turn, at the end of the charge phase, you can pick 1 enemy unit within 9" of this unit. Add 1 to hit rolls for attacks made by friendly **STORMCAST ETERNALS** units that target that enemy unit in the following combat phase.
