

BATTLESCROLL: THE HUNT

MAY 2022

This battlescroll introduces **priority targets** and **prime hunters**. Priority targets are some of the toughest adversaries in the Mortal Realms, and players score victory points for taking them down. Prime hunters are armies that are further rewarded for eliminating these foes.

This document is a matched play supplement for use in battles fought using the Pitched Battles battlepack. It will be updated over time in response to new releases and results from matched play events. If a battletome or battle tome update has a more recent publication date than this document, units from that publication may *not* be designated as either priority targets or prime hunters.

PRIORITY TARGETS

The units listed in the tables below gain the **PRIORITY TARGET** keyword, as well as a **reward value**. Each time an enemy **PRIORITY TARGET** unit is destroyed, and it was not destroyed by a friendly **PRIORITY TARGET** unit, you immediately score a number of victory points equal to the reward value of that unit. If the destroyed **PRIORITY TARGET** unit was reinforced, score 1 additional victory point for each time the unit was reinforced.

PRIME HUNTERS

Some factions, subfactions and army types are listed as **prime hunters**. If you command a prime hunters army, each time you score any victory points for a destroyed enemy **PRIORITY TARGET** unit, you score 1 additional victory point.
