

# AGENTS OF CHAOS

From nightmarish daemons to twisted mutants and hulking champions of ruin, many servants of the Dark Gods have journeyed to the Gnarlwood, determined to dominate and despoil this savage land in the name of their dreadful masters. Woe betide those who stand in their way.

Worshippers of the Ruinous Powers have been sighted within the sweltering depths of the Gnarlwood, carving a bloody path through the forest towards Talaxis itself. The majority of these agents are mortals who, having damned their souls for eternity by entering into dark pacts with the Chaos Gods, now seek to earn unnatural power by pleasing their merciless patrons with acts of unrestrained brutality. From savage beastmen to armour-clad Chaos warriors, depraved hedonists to devious skaven assassins, all manner of ambitious and ruthless killers can be found in the service of the Ruinous Powers. None have a shred of mercy left in their rotten souls. In their wake, they leave the butchered corpses of their foes and blasphemous totems erected in the honour of whatever dread deity they choose to worship.

The Bloodbound of Khorne exult in the violent surges of the Gnarlwood, where there are plenty of worthy skulls – of monsters and men alike – to be reaped. Worshippers of Tzeentch cast an avaricious eye upon the eldritch treasures and magical secrets contained within the vaults of Talaxis, while the putrid servants of Nurgle see the sweltering Gnarlwood as the perfect incubator for their holy plagues. The Maggotkin take a cultivator's joy in seeding foulness into the rampant flora of the Gnarlwood, watching in delight as hideous, pus-dribbling forms emerge from glistening pods. Somewhat rarer are the Hedonites of Slaanesh, for many of these pleasure-seekers find this environment terribly base and ugly for their tastes. Yet there are always those Hedonites that seek to indulge their bestial side to excess.

The Beasts of Chaos have long thrived in the primordial wilderness of Thondia, erecting their towering herdstones and surging forth across the plains to raid and maraud. It is not uncommon to see them abroad in the Gnarlwood, nor to hear their demented braying in the depths of the great forest. All signs of civilised life are despised by the beastmen, though they reserve a particular hatred for the temples of the Seraphon, which radiate an aura of purity and order that is entirely anathema to these manifestations of anarchy.

Nowhere in the Mortal Realms is entirely free of the presence of skaven, for these malevolent and cunning ratmen can find a way into any bastion, no matter the quality of its defences. Swarming, scab-furred bodies pour through hidden tunnels into the Gnarlwood, led by warlords that have caught wind of the Legend of Talaxis and whose whiskers quiver at the prospect of plunder.

Savage tribes of Chaos worshippers can be found across the continent of Thondia, raiding and slaughtering any who deny the primacy of the Dark Gods. Many have ventured into the Gnarlwood, seeking either to deface the monuments of the Seraphon or else capture some of their hated cold-blooded foes to torture and sacrifice. Stomping through the forest come armoured brutes, the

wicked edges of their grandaxes gleaming in the darkness, marching alongside fur-clad barbarians and mutated monsters.

Worshippers of the Chaos Gods are diverse in appearance and culture. Within the Eightpoints – the heart of Archaon the Everchosen's dominion of Chaos – there exist thousands of tribes, warbands and cults. Names such as the Iron Golem, the Tarantulos Brood and the Spire Tyrants are known and feared across this hellish land. Each of these warbands worships a different master, sometimes an aspect of one of the Dark Gods, other times a lesser daemonic entity offering power in exchange for servitude. Some have found their way to the Gnarlwood and seek to earn the favour of their dark patrons by ransacking the Ravening Ruin.

More terrible than even the most black-hearted mortal worshippers of the Ruinous Pantheon are the daemons. These infernal creatures are formed from the pure essence of a Chaos God, now loosed upon reality to kill and despoil. Though they cannot endure in the Mortal Realms indefinitely, slaughter and suffering empowers these beings, strengthening their connection to the physical world – and there is no shortage of torment and despair to be found in the Gnarlwood.

*The servants of Chaos take many forms, from winged horrors and fur-clad barbarians to towering Ogroid Myrmidons that delight in tearing their foes to shreds.*

# ALLIES OF CHAOS

Many monstrous creatures of Chaos are blessed with a cruel sentience, a predatory cunning that renders them particularly dangerous. Ambitious champions may bargain with such creatures in an attempt to make use of their formidable might – a risk worth taking, despite the potential for gruesome injury or death.

## FOMOROID CRUSHER

Fomoroid Crushers are living siege engines filled with a single-minded desire to demolish and destroy. Once, the fomoroids were masons and artisans possessed of great skill, until they were conquered and leashed to the service of Archaon the Everchosen. Branded with runes of domination that rob them of any sensation beyond the need to pulverise all in their path, they are now used as tools of unthinking destruction, loosed upon those of the Everchosen's foes who think to hide behind fortifications. Swinging chunks of stone or crude masonry tools, they crush and splatter their foes to paste. Sometimes, these creatures are granted to promising warbands or aspiring champions, and they have proven especially useful for tearing a path through the thick undergrowth of the Gnarlwood.

### FOMOROID CRUSHER ABILITIES

 	<p><b>[Reaction] Unthinking Destruction:</b> A fighter can make this reaction after an enemy fighter finishes a move action on an open platform and within 3" horizontally and 5" vertically of this fighter. The controlling player for each fighter within ½" of the edge of that platform must take a falling test, and on a roll of 1 or 2 that fighter falls.</p>
 	<p><b>[Double] Bloody Trophy:</b> A fighter can only use this ability if an enemy fighter has been taken down by an attack action made by them this activation. Add one wild dice to your saved wild dice.</p>
 	<p><b>[Double] Hurl Masonry:</b> A fighter can only use this ability if they are within 1" of an obstacle. Pick a visible enemy fighter within 8" of this fighter and roll a dice. On a roll of 2-4, allocate 1 damage point to that fighter. On a roll of 5+, allocate a number of damage points to that fighter equal to the value of this ability.</p>
 	<p><b>[Triple] Rampaging Charge:</b> Until the end of this fighter's activation, the next time this fighter finishes a move action within 1" of an enemy fighter, pick a visible enemy fighter within 1" of this fighter. Allocate a number of damage points to that fighter equal to the value of this ability.</p>

## OGROID MYRMIDON

Ogroid Myrmidons are hulking monsters that have devoted themselves utterly to mastering the martial disciplines. Despite their size, they wield their weapons with tremendous skill, striking out with spiked shields to send enemies stumbling backwards before delivering mighty, impaling thrusts with their spears. Should they be wounded, they become even more ferocious as the runes across their bodies glow with hellish power. Myrmidons are often prized as pit-fighters or overseers by Chaos warlords and can be sighted in many war-torn regions of the Mortal Realms, accompanying heathen raiders on missions of slaughter or destruction.

 	<p><b>[Double] Berserk:</b> A fighter can only use this ability if 20 or more damage points have been allocated to them. Add 3 to the Attacks characteristic of the next melee attack action made by this fighter in this activation.</p>
 	<p><b>[Triple] Arcane Fury:</b> Until the end of this fighter's activation, add the value of this ability to the damage points allocated to enemy fighters by each critical hit from melee attack actions made by this fighter.</p>
 	<p><b>[Triple] Blood Marshal:</b> Pick a visible friendly fighter within 4" of this fighter. Allocate 1 damage point to that fighter. If that fighter is not taken down, they can make a bonus melee attack action.</p>

## MINDSTEALER SPHIRANX

The Eightpoints are stalked by all manner of unsettling beasts, but few are as sinister as the Mindstealer Sphiranxes. Once denizens of Hysh who served the Archmage Teclis, avarice and bitterness proved their undoing, and they struck a terrible bargain that saw them banished from the Ten Paradises and forced to ally with the Dark Powers of Chaos. Though a Mindstealer's claws are sharp and its leonine body swift, its true power comes from the third eye upon its forehead. With this mystic orb, a Sphiranx can stare into the minds of its foes, plundering knowledge – over which it obsesses – or crushing the enemy's will to fight, leaving them easy prey for the spiteful beast.

### MINDSTEALER SPHIRANX ABILITIES

**[Reaction] Spiteful Reprisal:** A fighter can make this reaction after they are targeted by an attack action but before the hit rolls are made. For each hit roll from that attack action that misses, reduce the value of one of the attacker's controlling player's **[doubles]**, **[triples]** or **[quads]** to 1.

**[Double] Telepathic Threatening:** Pick an enemy fighter within a number of inches of this fighter equal to the value of this ability and roll a dice. On a roll of 3+, until the end of the battle round, that fighter cannot make move actions or disengage actions.

**[Triple] Dominate Mind:** Pick a visible enemy fighter within 6" of this fighter and roll a number of dice equal to the value of this ability. For each roll of 2-5, allocate 1 damage point to that fighter. For each roll of 6, allocate 3 damage points to that fighter.

**[Quad] Charm:** Pick a visible enemy fighter within a number of inches of this fighter equal to the value of this ability. That fighter cannot activate or make reactions in this battle round.

*Even the mightiest warriors should beware a Mindstealer Sphiranx, for this arcane beast can dominate the minds of lesser mortals and make them its willing thralls.*

# MONSTERS OF CHAOS

The raw, mutating power of Chaos has given rise to an endless and horrific variety of monsters and fearsome creatures. Though these beasts can be dominated and controlled, any champion wishing to do so must beware, for their souls are as black as any daemon's and they should never be underestimated.

## CHIMERA

A particularly grotesque and deadly example of Chaos mutation is the Chimera, a three-headed amalgamation of bestial body parts known for its unrelenting aggression.

## CHAOS GARGANT

Many gargants stray into lands redolent with Chaos energies and are slowly corrupted in mind and body. Descending into a state of mindless savagery, these Chaos Gargants rampage across the realms, trampling and devouring anything unfortunate enough to lie in their path. It is a brave warlord indeed who attempts to bind such a living engine of destruction into their service.

## GHORGON

Swollen with the cursed bloodgreed, Ghorgons eviscerate the foe with swings of their huge bladed limbs. These towering titans are said to be descended from ancient tribes of beastmen whose unending hunger drove them to cannibalism, causing them to grow ever larger and more terrifying. Even in combat, Ghorgons are filled with an insatiable urge to feed, gulping down those warriors who present the tastiest morsels.

## HELL PIT ABOMINATION

Seen by the fleshcrafters of the Clans Moulder as the pinnacle of their repulsive craft, a Hell Pit Abomination is a living mountain of misshapen flesh and rusted sutures. It lollops and rolls across the battlefield, crushing and tearing in a deranged frenzy. Even when this horrendous monster is cut down, the horror is not over as swarms of flesh-eating rats spill from its innards, falling upon those warriors who slew their host.

# THRALLS OF CHAOS

Warped and twisted by the energies of Chaos, many lesser predators and scavengers can be found across the Mortal Realms, picking over carrion or preying upon the weak. Though individually such creatures are no more than a minor threat, when they group together, they can overwhelm even the most formidable warrior.
