

# LEAGUES OF VOTANN POINTS VALUES

You can use this page to determine the points (pts) value of each unit in your army. Each entry lists the unit's size (i.e. how many models the unit can contain) and how many points the unit costs. If an entry has a unit cost of 'x pts/model', then the unit costs x points for every model in that unit. You must then add points for each weapon, or other item of wargear, that is included in that unit if it is listed in that unit's entry (weapons and wargear not listed in a unit's entry cost no additional points to include in that unit). Points values highlighted in pink have been revised since the publication of *Codex: Leagues of Votann*.
