## V1.1

These documents collect amendments to the rules and present our responses to players' frequently asked questions. As they're revised regularly, each of these documents has a version number; where a version number has a letter, e.g. 1.1a, this means it has had a local amendment, only in that language, to clarify a translation issue or other minor correction. When a document is revised, the version number will be incremented and newly updated entries will be highlighted in **blue**, while entirely new additions will be highlighted in **magenta**.

### FAQ

**Q.** Can Fury of the Legion be used when a unit makes a Return Fire Reaction?

**A.** Yes.

**Q.** When a model making attacks with a Rapid Fire weapon at a target up to half that Rapid Fire weapon's Maximum Range is affected by a special rule that adds 1 to the number of shots fired (such as Fury of the Legion), how many attacks are made?

**A.** 3.

**Q.** Do the primary and secondary components of a combi-weapon count as a weapon of the same type as their standard version (e.g., do the bolter (Primary) and meltagun (Secondary) components of a Combi-melta count as a 'Bolt' weapon and a 'Melta' weapon respectively in the same manner as a standard bolter and a standard meltagun)?

**A.** Yes.

**Q.** If I set up a model with a nuncio-vox as the first model as part of a Deep Strike Assault, can I then use that model's nuncio-vox to re-roll the Scatter roll?

**A.** No.

**Q.** Can I replace part of a combi-weapon with a weapon option from a Legion Armoury section? (for example, could I replace the bolter component of a combi-weapon on an Iron Warriors model with a shrapnel bolter?)

**A.** No.

**Q.** Are the Emperor's Children Phoenix Warden, Sons of Horus Dark Emissary, Word Bearers Diabolist and Alpha Legion Saboteur upgrades considered to be Consul upgrades (and therefore cannot be selected alongside another Consul upgrade)?

**A.** Yes.

**Q.** Can a Thousand Sons model with the Independent Character, Apothecarion Detachment or Techmarine Covenant special rules join or be assigned to a Thousand Sons unit which has a different Prosperine Arcana?

**A.** Yes.

**Q.** Can Zardu Layak leave the Anakatis Kul Blade Slaves?

- Sekhmet Terminator Cabal
- Contemptor-Osiron Dreadnought Talon
- Castellax-Achea Automata

**Q.** If a Rite of War or other ability requires units to be designated or selected at the start of the battle, before any units have been deployed to gain a Special Rule, are these units designated before any Independent Characters are able to join those units?

**A.** Yes.

*Designer's Note: In these cases, the Independent Character could also be designated as one of these units and then join another of the designated units while in Reserves as normal. Note that Characters which already have the appropriate special rule granted from another source can also join designated units which are in reserves as normal. Similarly an Independent Character which has been joined by a Retinue Squad is treated as being a single unit for the purposes of designation.*

**Q.** If a unit has a note on its unit entry that states it gains an additional attack for having two melee weapons, is this in addition to the additional attack granted by the core rules for having two melee weapons?

**A.** No.

**Q.** If a unit that is limited to not exceeding a certain percentage of your army's total points cost (such as a Primarch) takes a Retinue Squad, is the Retinue Squad, and any Dedicated Transports purchased for them, considered part of the value of that original unit for the purposes of the total value of that unit?
