Other than **WARRIOR** operatives, your kill team can only include each operative above once.

BOLT WEAPONS

Some rules in this army list refer to a 'bolt weapon'. A bolt weapon is a ranged weapon that includes 'bolt' in its name, e.g. stalker bolt rifle, heavy bolt pistol, etc.

TAC OPS

If your faction is **INTERCESSION SQUAD**, you can use the Intercession Squad Tac Ops listed below, as specified in the mission sequence.

SHOCK AND AWE

Intercession Squad – Faction Tac Op 1

You can reveal this Tac Op in the Reveal Tac Ops step of any Turning Point.

- At the end of any Turning Point, if friendly operatives control one or more objective markers that were controlled by enemy operatives at the start of the Turning Point, you score 1VP.
- If you achieve the first condition in any subsequent Turning Points, you score 1VP.

CHAMPION OF MANKIND

Intercession Squad – Faction Tac Op 2

You can reveal this Tac Op when a friendly **INTERCESSION SQUAD** operative incapacitates an enemy operative. At the end of the battle:

- If that friendly operative has incapacitated more enemy operatives than each other friendly **INTERCESSION SQUAD** operative has during the battle, you score 1VP.
- If that friendly operative has incapacitated more enemy operatives than each other enemy operative has during the battle, you score 1VP.

INDOMITABLE SUPERIORITY

Intercession Squad – Faction Tac Op 3

Reveal this Tac Op at the end of the battle:

- If enemy operatives do not control any objective markers but an **INTERCESSION SQUAD** operative does, you score 1VP.
- If there are less enemy operatives in the killzone than there are friendly **INTERCESSION SQUAD** operatives in the killzone, you score 1VP.

If the mission objective requires operatives to be removed from the killzone to score victory points (but not as a result of being incapacitated), e.g. to 'escape', you cannot select this Tac Op.

INTERCESSION SQUADS

Intercession Squads are one of the most common kill teams deployed by Space Marines accompanying the Indomitus Crusade Fleets. Intended as a standard pattern for Adeptus Astartes kill teams, Intercession Squad protocols are disseminated to every fleet. These specialist groups of Intercessors and Assault Intercessors were first formulated by the Primarch Roboute Guilliman and have proven brutally effective. The Lord Commander planned them as tactically adaptable teams that could respond to the needs of all manner of missions, for even his strategic genius could not foresee all the manifold threats that the fleets would encounter out in the galaxy's darkness.

Some Chapters – particularly the Ultramarines and their successor Chapters – embrace this pattern of kill team for its connection to the Primarch, seeing its use as honouring their primogenitor. Others employ Intercession Squads for the sound tactical efficiency that they represent, while especially hidebound Chapters see their use as purely provisional until decades of data justify a wider adoption. When dispatched, Intercession Squads are sent to intercede in all manner of situations in support of a fleet's task forces, or are deployed far from the battlefield, to regions where the enemy remains unknown and shadows still prevail over the Emperor's light.

ABILITIES

Below, you will find common abilities of the **INTERCESSION SQUAD** kill team.

CHAPTER TACTICS

Each Chapter of Space Marines is a martial brotherhood with its own combat philosophies suited to the unique skills and temperaments of its battle-brothers. These tenets of war may be clothed in esoteric rituals built up over thousands of years, but remain as brutally effective as when they were first laid down.

When you create a roster or dataslate for an **INTERCESSION SQUAD** kill team, select two abilities from those listed below. Every **INTERCESSION SQUAD** operative on your roster or dataslate gains those abilities.

Each ability can be found in a category, e.g. the 'Discipline of Iron' category. The categories have no bearing on your selection, but other rules found in this army list (e.g. Adaptive Tactics, page 4) interact with categories.

Martial Zealotry

Aggressive: Each time this operative fights in combat in an activation in which it performed a **Charge** action, its melee weapons gain the Rending critical hit rule for that combat.

Dueller: Each time this operative fights in combat, in the Resolve Successful Hits step of that combat, each time it parries with a critical hit, you can select an additional normal hit of your opponent's to be discarded.

Rapid: Add ▲ to this operative's Movement characteristic.

Tactical Evasion

Raider: This operative can perform the **Charge** action while within Engagement Range of an enemy operative. In addition, each time this operative performs a **Normal Move** action, it can move within Engagement Range of an enemy operative (but cannot finish its move there).

Stealthy: Each time a shooting attack is made against this operative, in the Roll Defence Dice step of that shooting attack, before rolling your defence dice, if it's in Cover and more than ◆ from the active operative, you can do one of the following:

- Retain one additional dice as a successful normal save as a result of Cover.
- Retain one dice as a successful critical save instead of a normal save as a result of Cover.

Mobile: This operative can perform the **Fall Back** action for one less action point (to a minimum of 1AP).

Gene-wrought Resilience

Unyielding: Add 1 to this operative's Wounds characteristic.

Durable: Each time this operative fights in combat or a shooting attack is made against it, in the Resolve Successful Hits step of that combat or shooting attack, one critical hit inflicts one less damage on this operative (to a minimum of 3).

Hardy: Each time a shooting attack is made against this operative, in the Roll Defence Dice step of that shooting attack, retained defence dice results of 5+ are critical saves (instead of just 6).

Discipline of Iron

Accurate: Each time this operative makes a shooting attack with a bolt weapon, in the Roll Attack Dice step of that shooting attack, if you retain any critical hits, that weapon gains the No Cover special rule for that shooting attack.

Methodical: You can ignore any or all modifiers to the Ballistic Skill and Weapon Skill characteristics of this operative's weapons.

Deadly Sharpshooter: For the bolt weapon this operative is equipped with:

- Subtract 1 from its Critical Damage characteristic.
- It gains the MW1 critical hit rule.

STRATEGIC PLOYS

If your faction is **INTERCESSION SQUAD**, you can use the following Strategic Ploys during a game.

DEVASTATOR DOCTRINE 1CP

Until the end of the Turning Point, each time a friendly **INTERCESSION SQUAD** operative makes a shooting attack against an enemy operative more than **1** from it, in the Roll Attack Dice step of that shooting attack, you can re-roll one of your attack dice. You cannot use another 'Doctrine' Strategic Ploy in this Turning Point.

TACTICAL DOCTRINE 1CP

Until the end of the Turning Point, each time a friendly **INTERCESSION SQUAD** operative makes a shooting attack against an enemy operative within **1** of it, in the Roll Attack Dice step of that shooting attack, you can re-roll one of your attack dice. You cannot use another 'Doctrine' Strategic Ploy in this Turning Point.

ASSAULT DOCTRINE 1CP

Until the end of the Turning Point, each time a friendly **INTERCESSION SQUAD** operative fights in combat in an activation in which it performed a **Charge** action, in the Roll Attack Dice step of that combat, you can re-roll one of your attack dice. You cannot use another 'Doctrine' Strategic Ploy in this Turning Point.

AND THEY SHALL KNOW NO FEAR 1CP

Until the end of the Turning Point:

- You can ignore any or all modifiers to the APL of friendly **INTERCESSION SQUAD** operatives.
- Friendly **INTERCESSION SQUAD** operatives are not injured.

TACTICAL PLOYS

If your faction is **INTERCESSION SQUAD**, you can use the following Tactical Ploys during a game.

ADAPTIVE TACTICS 1CP

Use this Tactical Ploy in the Select a Kill Team step, when selecting your kill team. Change one of your Chapter Tactics abilities (pg 3) for the battle to another from the same category. You can only use this Tactical Ploy once per battle.

TRANSHUMAN PHYSIOLOGY 1CP

Use this Tactical Ploy in the Roll Defence Dice step of a shooting attack, after rolling defence dice for a friendly **INTERCESSION SQUAD** operative. You can retain one of your successful normal saves as a critical save instead.

ANGEL OF DEATH 1CP

Use this Tactical Ploy at the end of the Firefight phase. Select one friendly **INTERCESSION SQUAD** operative to perform a free **Fight** action.

WRATH OF VENGEANCE 1CP

Use this Tactical Ploy when a friendly **INTERCESSION SQUAD** operative is incapacitated. Before that operative is removed from the killzone, it can perform a free **Shoot** action. Unless otherwise specified, the operative would be injured for this.

ASSAULT INTERCESSOR SERGEANT

These mission leaders understand the optimal moment to unleash charges. They are exemplars in the press of melee, rending foes in twain with their deadly close combat weapons.

EQUIPMENT

INTERCESSION SQUAD operatives in your kill team can be equipped with equipment from this list, as specified in the mission sequence. Any equipment marked with a + can be selected a maximum of once, and each operative can be equipped with no more than one of each item.

TILTING SHIELD [3EP]

The operative gains the following ability for the battle:

PURITY SEAL [3EP]

The operative gains the following ability for the battle:

Purity Seal: Once per battle, when this operative is fighting in combat, making a shooting attack or a shooting attack is being made against it, you can use the Command Re-roll Tactical Ploy (see the Kill Team Core Book) without spending any Command points.

INTERCESSION SQUAD SPEC OPS RULES

Over the following pages you will find a selection of rules for Spec Ops campaigns in which you have selected **INTERCESSION SQUAD** as your Faction keyword.

BATTLE HONOURS

Each time an **INTERCESSION SQUAD** operative gains a Battle Honour, instead of determining one from its specialism, you can determine one from the Intercession Squad Specialist table below. You can either roll one D6 to randomly determine the Battle Honour (re-rolling if it isn't suitable), or you can select an appropriate one. As with any Battle Honour, an operative cannot have the same one more than once (if a duplicate result is rolled, roll again until a different result is rolled).

INTERCESSION SQUAD SPECIALIST

D6	Battle Honour
1	Marksman's Honour: Select one of this operative's ranged weapons. Improve the Ballistic Skill characteristic of that weapon by 1 (to a maximum of 2+).
2	Bladesman's Honour: Select one of this operative's melee weapons. Improve the Weapon Skill characteristic of that weapon by 1 (to a maximum of 2+).
3	Chapter Exemplar: This operative gains an additional Chapter Tactics ability (pg 3). This must be an ability from the category of one of its existing Chapter Tactics abilities.
4	Spiritual Resolve: You can re-roll Recovery tests taken for this operative. In addition, each time this operative gains a Battle Scar, you can roll an extra D6 and select which result to use.
5	Specialised: Select one Battle Honour for this operative from the Combat, Staunch, Marksman or Scout specialisms. Note that you can select a Battle Honour from that specialism even if the operative couldn't normally progress in it.
6	Honoured by the Armoury: In the Select Equipment step, when selecting equipment from your stash, you can select one item of equipment to equip this operative with for one less equipment point (to a minimum of OEP).

RARE EQUIPMENT

Each time you would determine an item of rare equipment to add to your stash, if your faction is **INTERCESSION SQUAD**, you can determine one from the table below instead of determining one from another source. To do so, you can either roll one D6 to randomly determine the rare equipment (re-rolling if it isn't suitable), or you can select an appropriate one. As with any item of rare equipment, your stash cannot include more than one of each item (if a duplicate result is rolled, roll again until a different result is rolled).

1. BASTION FIELD GENERATOR [3EP]

The operative gains the following ability for the battle:

Bastion Field Generator: This operative has a 4+ invulnerable save.

2. ADAMANTINE MANTLE [2EP]

The operative gains the following ability for the battle:

Adamantine Mantle: Once per Turning Point, when Critical Damage would be inflicted upon this operative, you can use this ability. If you do so, that attack dice inflicts Normal Damage instead.

3. TARGETING OCULAR [2EP]

The operative gains the following ability for the battle:

Targeting Ocular: Each time this operative makes a shooting attack, in the Select Valid Target step of that shooting attack, enemy operatives are not Obscured.

4. SERVO-CHERUB [3EP]

The operative gains the following ability for the battle:

Servo-cherub: Once per Turning Point, during this operative's activation, it can perform a mission action or the **Pick Up** action for one less action point (to a minimum of OAP).

5. ARTIFICER ARMOUR [3EP]

Change the operative's Save characteristic to 2+ for the battle.

6. CHAPTER ARTEFACT [1EP]

The operative gains the following ability for the battle:

Chapter Artefact: When determining control of an objective marker, treat this operative's APL characteristic as being 1 higher. Note that this is not a modifier. In narrative play, this is cumulative with the Focused Battle Honour (see the Kill Team Core Book).

STRATEGIC ASSETS

Each time you would add a strategic asset to your base of operations, if your faction is **INTERCESSION SQUAD**, you can select one from the list below instead of selecting one from another source. As with any strategic asset, you can never have more than one of each.

HYPNOINDOCTRINATION SHRINE

The kill team maintain a compact meditative data-shrine at their base of operations. Through neural communion with the device, a battle-brother can reinforce his grasp of skills and protocols by way of hypnotic suggestion and psychosomatic interactions, honing his strengths to ensure he remains at peak efficiency.

After the battle, in the Update Dataslates step, from the friendly **INTERCESSION SQUAD** operatives that were selected for deployment and did not fail a Casualty test, select the operative with the lowest experience points to gain 1XP (if more than one operative would qualify for this, select one of them to gain 1XP). You can only add this strategic asset to your base of operations if your dataslate includes at least one operative of Veteran rank or higher.

INTEL-CACHE UPLINK

Using a hidden comms booster that strengthens the kill team's signal to an orbiting Chapter vessel, the operatives receive vital intelligence on enemy movements, topographical changes and energy signatures. This information means the squad can effect precise strikes capable of catching the enemy flat-footed.

In the Set Up Operatives step, **INTERCESSION SQUAD** operatives can be set up wholly within ▲ of your drop zone (instead of wholly within it).

ARSENAL SUB-VAULT

Servitors dispatched by the Chapter's Techmarines attend this shielded magazine. The weapons and ammunition it holds are carefully calibrated and oiled with rare unguents, ensuring they are fully prepared for any mission.

In the Select a Kill Team step, you can also reselect the equipped weapon options of friendly **INTERCESSION SQUAD** operatives (you are not limited to the option you selected when they were first added to your dataslate). For example, if an **INTERCESSOR SERGEANT** operative is equipped with a bolt rifle and power weapon, you could change its bolt rifle, power weapon or both to another valid option specified on page 1.

REQUISITIONS

In a Spec Ops campaign, if your faction is **INTERCESSION SQUAD**, you can use the following Requisitions in addition to those presented in other sources.

TRIBUTE TO NOBLE DUTY 1RP

Operatives who execute their missions with high skill, efficiency and as exemplars of their Chapter's tenets may be rewarded for their mighty deeds with an artefact drawn from the Chapter's vaults. Such a bestowal is as symbolic as it is practical, transforming the operative into an esteemed weapon of war.

Purchase this Requisition after a game in which you were the winner and scored 16 or more victory points. Add one item of rare equipment to your stash.

ARTIFICER-WROUGHT WEAPON 1RP

To receive the favour of the Chapter's Techmarines is a high honour. Their artistry in metallurgy and their arcane technological knowledge are used in the crafting of weapons whose perfection of form matches their deadliness in battle.

Purchase this Requisition after a game in which a friendly **INTERCESSION SQUAD** operative with the Ace, Grizzled or Revered rank earned experience points. You can add one item of rare equipment to your stash, but only that operative can be equipped with it (make a note of this on its narrative datacard). If that operative is removed from your dataslate, remove that item of rare equipment from your stash. Each friendly **INTERCESSION SQUAD** operative can only be upgraded with this Requisition once.

SOLEMN OATH 1RP

As part of the warrior culture of their Chapter, many Space Marines swear oaths before their battle-brothers to achieve feats of honour or duty, striving to fulfil them during the conflict that follows.

Purchase this Requisition before a game. Select one **INTERCESSION SQUAD** operative from your dataslate to take an Oath of Moment. Select an Oath of Moment below and make a note of it in the Notes section of that operative's narrative datacard.

- **Valour:** The operative must incapacitate the highest number of enemy operatives in the battle.
- **Duty:** The operative must score you more victory points from the mission objective than any other friendly operative during the battle.
- **Honour:** The operative must be wholly within your opponent's drop zone at the end of the battle.

At the end of a battle, if that operative completed its Oath of Moment, it earns 2XP (this is not affected by a passed Casualty test); alternatively, you can choose for it to fail its Oath of Moment, in which case it suffers the Cerebral Affliction Battle Scar (see the Kill Team Core Book). In either case, it has no longer taken an Oath of Moment. You can only have one operative from your dataslate take an Oath of Moment at once, each operative can only take each Oath of Moment once, and an operative cannot take another Oath of Moment until a different friendly operative completes or fails an Oath of Moment first.

SPEC OPS

Each time you would select a Spec Op for your kill team to be assigned to, if your faction is **INTERCESSION SQUAD**, you can select one from those found on the following page instead of selecting one from another source.

DEFENDERS OF HUMANITY

The kill team must be humanity's shield, now more than ever in the Era Indomitus. Dispatched into a dangerous war zone with orders to turn the tide, victory must be achieved through superiority before a final execution blow is struck.

OPERATION 1: ESTABLISH SUPERIORITY

The kill team must achieve ruthless dominance in key areas to slow the enemy's advance and leave them in no doubt that they face the unalloyed might of the Adeptus Astartes.

Complete five games in which you scored victory points from the 'Protect Assets', 'Indomitable Superiority' and/or 'Hold the Line' Tac Op.

OPERATION 2: SHOCK ELIMINATION

The enemy's momentum has faltered; their morale is on a precipice. A last ditch attempt to achieve victory sees their forces advance, but they cannot be allowed to gain ground. Break them here and they will not recover.

Complete a game in which you scored the maximum 2 victory points from a Security Tac Op.

COMMENDATION

- You gain two Requisition points.
- You can increase your asset capacity by one, and can immediately use the Asset Acquired Requisition (see the Kill Team Core Book) once without spending any Requisition points.

SPEC OPS BONUS

For the purposes of a mission's Spec Ops bonus, this Spec Op is considered a 'Secure District' Spec Op.

MANKIND'S VENGEANCE

The kill team has located a powerful enemy preying upon a vulnerable Imperial world. They must bring the swift and sudden judgement of the Emperor upon these foes, overwhelming them with decisive assaults, severing them from support and crushing them before they can marshal any response.

OPERATION 1: STRATEGIC DOMINANCE

The enemy are spread wide, slaughtering and raiding. The kill team must show their martial dominance, drawing on their incredible adaptability in every area of warfare.

Complete five games in which you scored victory points from the 'Shock and Awe', 'Indomitable Superiority' and/or 'Champion of Mankind' Tac Op.

OPERATION 2: TARGETED DESTRUCTION

The kill team's efforts have driven their reeling foe onto the back foot. To break them now requires a flurry of surgical strikes - targeting their leaders, tracking down looted relics and undertaking honour duels to sap enemy morale.

Complete a game in which you scored the maximum 2 victory points from a Seek and Destroy Tac Op.

COMMENDATION

- You can distribute up to 10XP across the operatives on your dataslate (max 3XP per operative).
- You can add one item of rare equipment to your stash, or you can increase your asset capacity by one.

SPEC OPS BONUS

For the purposes of a mission's Spec Ops bonus, this Spec Op is considered a 'Purge Order' Spec Op.
