

WARHAMMER LEGENDS

LEGENDS OF THE HORUS HERESY FIELD MANUAL

VERSION 1.0

Welcome to the Legends of the Horus Heresy Field Manual. This document contains the points values for all of your favourite Warhammer Legends datasheets, and can be used in your games of Warhammer 40,000.

You can use this document to determine the points (pts) value of Legends units in your army. Each entry lists the increments to a unit's size that incur different points costs. This may change with the addition of each individual model (e.g. 1 model, 2 models, 3 models, etc.) or it may be presented with a lower and upper limit to a unit's Starting Strength (e.g. one cost for 5 models, another cost for 10 models). In the latter case, your units can contain a number of models in between these limits, but you must still pay the maximum points cost for a unit that starts the game with more than its minimum number of models. You can learn more about using points to muster your army on pages 55-56 of the Core Rules.
