SYNAPSE

Some Tyranids serve as synaptic conduits or nodal relays through which a portion of the Hive Mind’s iron will flows, overriding the natural instincts of the swarm to direct the teeming warrior-beasts to function as a single, gestalt organism on the battlefield.

If your Army Faction is Tyranids, while a Tyranids unit from your army is within 6” of one or more Synapse models from your army, that unit is said to be within Synapse Range of your army. Each time a Tyranids unit from your army takes a Battle-shock test, if it is within Synapse Range of your army, take that test on 3D6 instead of 2D6.

SHADOW IN THE WARP

Tyranids flood the battlefield with the psychic signature of the hive fleet, an icy, alien dread that gnaws at the minds of their prey and smothers even the most stalwart courage. When faced with such unfathomable horror, many are driven insane or suffer catastrophic neural damage.

If your Army Faction is Tyranids, once per battle, in either player’s Command phase, if one or more units from your army with this ability are on the battlefield, you can unleash the Shadow in the Warp. When you do, each enemy unit on the battlefield must take a Battle-shock test.
TYRANIDS – INVASION FLEET

DETACHMENT RULE

If your Army Faction is **Tyranids**, you can use this Invasion Fleet Detachment rule.

**HYPER-ADAPTATIONS**

*Every warrior organism in the Tyranid race is fashioned by the ineffable alien will of the Hive Mind. Their flesh and chitin is endlessly mutable, honed into whatever form will prove most lethal to the prey.*

At the start of the first battle round, select one of the following Hyper-adaptations to be active for **Tyranids** units from your army until the end of the battle:

**SWARMING INSTINCTS**

Each time a **Tyranids** model with this Hyper-adaptation makes an attack that targets an enemy **Infantry** or **Swarm** unit, that attack has the **[SUSTAINED HITS 1]** ability.

**HYPER-AGGRESSION**

Each time a **Tyranids** model with this Hyper-adaptation makes an attack that targets an enemy **Monster** or **Vehicle** unit, that attack has the **[LETHAL HITS]** ability.

**HIVE PREDATORS**

Each time a **Tyranids** model with this Hyper-adaptation makes an attack that targets an enemy **Character** unit, if a Critical Hit is scored, that attack has the **[PRECISION]** ability.
### TYRANIDS – INVASION FLEET

**STRATAGEMS**

If you are using the Invasion Fleet Detachment rule, you can use these Invasion Fleet Stratagems.

</table>
| **RAPID REGENERATION**           | 1CP  | *INVASION FLEET – BATTLE TACTIC STRATAGEM*  
Prey stare in horror as chitinous armour regrows and flesh, muscle and sinew knots back together as though never harmed.  
*WHEN:* Your opponent’s Shooting phase or the Fight phase, just after an enemy unit has selected its targets.  
*TARGET:* One Tyranids unit from your army that was selected as the target of one or more of the attacking unit’s attacks.  
*EFFECT:* Until the end of the phase, models in your unit have the Feel No Pain 6+ ability. If your unit is within Synapse Range of your army, until the end of the phase, models in your unit have the Feel No Pain 5+ ability instead. |
| **ADRENAL SURGE**                | 2CP  | *INVASION FLEET – BATTLE TACTIC STRATAGEM*  
These warrior organisms destroy all as their adrenaline surges.  
*WHEN:* Fight phase.  
*TARGET:* Up to two Tyranids units from your army that are within Synapse Range of your army and are eligible to fight, or one other Tyranids unit from your army that is eligible to fight.  
*EFFECT:* Until the end of the phase, each time a model in one of those selected units makes an attack, a successful unmodified Hit roll of 5+ scores a Critical Hit. |
| **DEATH FRENZY**                 | 1CP  | *INVASION FLEET – STRATEGIC PLOY STRATAGEM*  
Tyranids care nothing for self-preservation, lashing out even in death.  
*WHEN:* Fight phase, just after an enemy unit has selected its targets.  
*TARGET:* One Tyranids unit from your army that was selected as the target of one or more of the attacking unit’s attacks.  
*EFFECT:* Until the end of the phase, each time a model in your unit is destroyed, if that model has not fought this phase, roll one D6: on a 4+, do not remove it from play. The destroyed model can fight after the attacking model’s unit has finished making attacks, and is then removed from play. |
| **OVERRUN**                      | 1CP  | *INVASION FLEET – STRATEGIC PLOY STRATAGEM*  
Tyranids are an unstoppable avalanche of flesh and chitin.  
*WHEN:* Fight phase, just before a Tyranids unit from your army Consolidates.  
*TARGET:* That Tyranids unit.  
*EFFECT:* Until the end of the phase, each time a model in your unit makes a Consolidation move, it can move up to 6” instead of up to 3”, provided your unit can end its Consolidation move in Unit Coherency and within Engagement Range of one or more enemy units. If your unit is within Synapse Range of your army and not within Engagement Range of any enemy units, instead of making that Consolidation move, it can instead make a Normal move of up to 6”. |
If you are using the Invasion Fleet Detachment rule, you can use these Invasion Fleet Stratagems.

**SYNAPTIC INSIGHT**

**INVASION FLEET – STRATEGIC PLOY STRATAGEM**

Guided by the instincts of leader-beasts, a portion of the swarm can be tasked with focusing its hunting instincts to destroy a particular foe.

**WHEN:** Your Command phase.

**TARGET:** Up to two Tyranids units from your army that are within Synapse Range of your army, or one other Tyranids unit from your army.

**EFFECT:** Select one Hyper-adaptation. Until the end of the battle round, that hyper-adaptation is active for those selected units in addition to any other that may be active for your army.

**RESTRICTIONS:** You cannot select the same hyper-adaptation you selected at the start of the first battle round.

---

**ENDLESS SWARM**

**INVASION FLEET – STRATEGIC PLOY STRATAGEM**

As the battle rages, more organisms pour in to bolster the swarms.

**WHEN:** Your Command phase.

**TARGET:** Up to two Endless Multitude units from your army that are within Synapse Range of your army, or one other Endless Multitude unit from your army.

**EFFECT:** Up to D3 + 3 destroyed models are returned to each of the selected units.
If you are using the Invasion Fleet Detachment rule, you can use these Invasion Fleet Enhancements.

**ALIEN CUNNING**

This leader-beast possesses highly sophisticated neural pathways, allowing it to identify priority strategic assets and adapt the position of its warriors to seize them before the foe even recognise their value.

**TYRANIDS** model only. After both players have deployed their armies, select up to three **TYRANIDS** units from your army and redeploy them. When doing so, you can set those units up in Strategic Reserves if you wish, regardless of how many units are already in Strategic Reserves.

**PERFECTLY ADAPTED**

This creature was created for one purpose: to completely eradicate the defenders of the target prey world.

**TYRANIDS** model only. Once per turn, you can re-roll one Hit roll, one Wound roll, one Damage roll, one Advance roll, one Charge roll or one saving throw made for the bearer.

**SYNAPTIC LINCHPIN**

With a cerebral cortex that pulsates with the irresistible power of the Hive Mind, this leader acts as a blazing synaptic beacon to the lesser creatures of the swarm, the better to direct their actions and react to the ever-changing state of battle.

**TYRANIDS** model only. While a friendly **TYRANIDS** unit is within 9” of the bearer, that unit is within Synapse Range of your army.

**ADAPTIVE BIOLOGY**

The same weapon rarely works against this leader-beast twice, as its alien physiology adapts at an astonishing rate to counter the attacks of the foe.

**TYRANIDS** model only. The bearer has the Feel No Pain 5+ ability. At the start of any turn, if the bearer has fewer than its starting number of wounds remaining, until the end of the battle, it has the Feel No Pain 4+ ability instead.

RIPPER SWARMS
Living carpets of Rippers squirm across the ground wherever the Tyranid swarms advance. Little more than simple eating machines, these chitinous horrors swarm over the wounded and dead alike, and can even drag down trained warriors in sufficient numbers. **HIVE CRONE**

Hive Crones scour the skies for prey fighter craft. The tentaclids they release pursue enemy aircraft before erupting in bio-electric pulses that banish motive force and send the dark, dead machines tumbling groundward. Then, drool cannons slathering, the Hive Crones dive down to seek fresh, land-based prey.

**WARGEAR OPTIONS**

**ABILITIES**

**CORE:** Deadly Demise D3, Hover

**FACTION:** Synapse

**Spore Mine Cysts:** Each time this model ends a Normal move, you can do one of the following:

- Select one enemy unit it moved over during that move and roll six D6: for each 3+, that unit suffers 1 mortal wound.
- Add a new Spore Mines unit containing D3 models to your army and set it up anywhere on the battlefield that is within 6" of this model and more than 9" horizontally away from all enemy units.

**DAMAGED: 1-4 WOUNDS REMAINING**

While this model has 1-4 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.

**KEYWORDS:** Monster, Fly, Aircraft, Great Devourer, Harpy

**FACTION KEYWORDS:** Tyranids
Harpies are flying bioforms whose natural agility allows them to outmanoeuvre most prey fighter craft. They are often sent in amidst the first waves of an invasion, dropping organic munitions onto panicked defenders and diving down to attack.

**HARPY**

- This model's twin stranglethorn cannon can be replaced with 1 twin heavy venom cannon.

**UNIT COMPOSITION**

- 1 Harpy
  
  This model is equipped with: stinger salvoes; twin stranglethorn cannon; scything wings.

SPOROCYST

Dropped from orbit, Sporocysts dig into the surface of the prey world like ticks then begin spewing toxic spores from their living chimneys. They are able to eject shoals of Mucolid Spores, while prey who stray too close are subjected to hails of organic projectiles from the bio-cannons grafted to the Sporocyst’s hide.

PSYCHOPHAGE

These monsters stampede into battle with frightening speed. They devour any prey organism in their paths, but especially favour those victims with psychic abilities. How they metabolise such esoteric powers is unclear, but doing so allows them to project surges of psychocorrosive ash that deflagrate their victims’ minds and souls.

**Abilities**

**Faction: Synapse**

**Disruption Bombardment:** In your Shooting phase, after this unit has shot, if an enemy Infantry unit was hit by one or more of those attacks made by this unit’s bio-cannons, until the end of your opponent’s next turn, that enemy unit is disrupted. While a unit is disrupted, subtract 2 from its Move characteristic, and subtract 2 from Advance and Charge rolls made for it.

**Faction Keywords:** Tyranids

**Keywords:** Infantry, Great Devourer, Barbgaunts
**BARBGANTS**

Barbgaunts are little more than living weapons, their bodies and bio-cannons slaved to the will of a pulsating ganglio-parasite that piggybacks them into battle. There, they unleash volleys of chitinous barbs that detonate with the fury of violent muscle-spasms and transfix nearby victims with hails of jagged projectiles.
