Imperial Knights fight by a stringent set of codes to ensure that in addition to defeating the enemy, honour is always upheld.

**CODE CHIVALRIC**

If your Army Faction is **Imperial Knights**, at the end of the Read Mission Objectives step, you must select one of the Oaths below to be active for your army. Models from your army with this ability gain the associated Oath ability, and you gain the associated Deed to complete.

If, at the start of any of your Command phases, your selected Oath’s Deed is completed, your army becomes Honoured for the rest of the battle and you gain 3CP (you can only gain CP in this way once per battle).

**LAY LOW THE TYRANT**

- **Oath Ability:** Each time this model is selected to shoot or fight, re-roll a Hit roll of 1 and re-roll a Wound roll of 1.
- **Deed:** This deed is completed if the enemy Warlord is destroyed.

**RECLAIM THE REALM**

- **Oath Ability:** Add 1” to this model’s Move characteristic and add 1 to Advance and Charge rolls made for this model.
- **Deed:** This deed is completed if you control one or more objective markers in your opponent’s deployment zone.

**BONDSMAN ABILITIES**

Some **Questoris** models have a Bondsman ability, tagged with the word ‘Bondsman’. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly **Armiger** model within 12” of that model (you cannot select an **Armiger** model that is already being affected by a Bondsman ability). Until the start of your next Command phase, both of those models (i.e. the model that just used its Bondsman ability and the **Armiger** model you just selected) are affected by that Bondsman ability.

**SUPER-HEAVY WALKER**

Each time a model with this ability makes a Normal, Advance or Fall Back move, it can move over models (excluding **Titanic** models) and terrain features that are 4” or less in height as if they were not there.

**FREEBLADES**

Freeblades often wander the galaxy, aiding the armies of the Imperium against the xenos and heretics who threaten the Emperor’s realm.

If every model in your army has the **Imperium** keyword, you can include either 1 **Titanic Imperial Knights** model or up to 3 **Armiger** models in your army, even if they do not have the Faction keyword you selected in the Select Army Faction step. None of these models can be your Warlord, and they cannot be given Enhancements.
If your Army Faction is **Imperial Knights**, you can use this Noble Lance Detachment rule.

**INDOMITABLE HEROES**

Gathered into a powerful formation known as a lance, Imperial Knights and the Nobles who pilot them wage their honour-driven assaults with renowned resilience and bloody-minded determination.

All **Imperial Knights** models from your army have the Feel No Pain 6+ ability. If your army is Honoured, those models have the Feel No Pain 5+ ability.
If you are using the Noble Lance Detachment rule, you can use these Noble Lance Enhancements.

REVERED KNIGHT (AURA)
Never hesitating before tyrannical invaders, this Knight is beheld as the very epitome of honour – a monolithic incarnation of the Imperium. While they stand, courage is inviolate and victory is assured.

Imperial Knights model only. While a friendly Imperial Knights model is within 6” of the bearer, improve that model’s Leadership characteristic by 1. If your army is Honoured, increase the range of this Aura ability to 12”.

MYSTERIOUS GUARDIAN
Manifesting as though from nowhere, this Noble’s titanic steed is an elemental force of vengeance against the Emperor of Mankind’s foes. At battle’s end, it disappears as mysteriously as it arrived.

Imperial Knights model only. The bearer has the Deep Strike ability. Once per battle, at the end of your opponent’s turn, if the bearer is not within Engagement Range of any enemy units, it can fade away. If it does, remove it from the battlefield then, in the Reinforcements step of your subsequent Movement phase, set it up anywhere on the battlefield that is more than 9” horizontally away from all enemy models. If the battle ends and the bearer is not on the battlefield, it is destroyed.

MYTHIC HERO
This warrior is a legendary figure who embodies the Code Chivalric, and tales of their deeds have spread far and wide. To be a Bondsman to such a warrior is a great honour indeed.

Questoris model with a Bondsman ability only. Each time the bearer uses its Bondsman ability, you can select one additional friendly Armiger model within 12” of the bearer that is not already being affected by a Bondsman ability. Until the start of your next Command phase, that model is also affected by that Bondsman ability.

BANNER OF MACHARIUS TRIUMPHANT
A gift from Lord Solar Macharius himself to honour the noble houses that accompanied his crusade, legend has it that this banner has never seen defeat: every time a Knight has carried it to war, a great victory has been won.

Imperial Knights model only. If you control an objective marker at the end of your Command phase and the bearer is within range of that objective marker, that objective marker remains under your control even if you have no models within range of it, until your opponent controls it at the start or end of any turn.

UNYIELDING PARAGON
This Knight is an unyielding army unto themselves, capable of engaging entire enemy forces and holding their ground, emerging through the fiercest firestorms bloodied, but unbowed.

Questoris model only. Each time an attack is allocated to the bearer, worsen the Armour Penetration characteristic of that attack by 1.
**SHOULDER THE BURDEN**

**NOBLE LANCE – BATTLE TACTIC STRATAGEM**

When faced with their darkest hour, knightly Nobles rise to the challenge, for nothing shall deter them from fulfilling their duty.

**WHEN:** Your Command phase.

**TARGET:** One *Imperial Knights* model from your army that has lost one or more wounds.

**EFFECT:** Until the start of your next Command phase, improve your model’s Move, Toughness, Save, Leadership and Objective Control characteristics by 1 and each time your model makes an attack, add 1 to the Hit roll.

**RESTRICTIONS:** You can only use this Stratagem once per battle. If your army is Honoured, you can use this Stratagem one additional time.

---

**ROTATE ION SHIELDS**

**NOBLE LANCE – WARGEAR STRATAGEM**

Veteran Knight pilots can swiftly angle their ion shields to better deflect incoming fire.

**WHEN:** Your opponent’s Shooting phase, just after an enemy unit has selected its targets.

**TARGET:** One *Imperial Knights* model from your army that was selected as the target of one or more of the attacking unit’s attacks.

**EFFECT:** Until the end of the phase, that *Imperial Knights* model has a 4+ invulnerable save against ranged attacks.

---

**THUNDERSTOMP**

**NOBLE LANCE – BATTLE TACTIC STRATAGEM**

The Noble brings their Knight suit’s full weight crashing down with the force of an industrial piledriver. Few can survive such a blow.

**WHEN:** Fight phase.

**TARGET:** One *Imperial Knights* model from your army that has not been selected to fight this phase.

**EFFECT:** Until the end of the phase, your model cannot target *Monster* or *Vehicle* units, but all melee weapons equipped by your model have the [DEVASTATING WOUNDS] ability.

---

**SQUIRES’ DUTY**

**NOBLE LANCE – BATTLE TACTIC STRATAGEM**

Under the scrutiny and judgement of their Noble betters, Armiger pilots will redouble their efforts, attacking as one to smash aside their foes.

**WHEN:** The start of your Shooting phase or the start of the Fight phase.

**TARGET:** Two or more *Armiger* models from your army and one enemy unit that is an eligible target for all of those *Armiger* models.

**EFFECT:** Until the end of the phase, improve the Strength and Armour Penetration characteristics of weapons equipped by those *Armiger* models by 1. If your army is Honoured, until the end of the phase, add 1 to the Damage characteristic of those weapons as well.
If you are using the Noble Lance Detachment rule, you can use these Noble Lance Stratagems.

### Trophy Claim

**Noble Lance – Epic Deed Stratagem**

Once a mighty foe is laid low, the victorious Knight’s emitters blare its triumph, announcing the glory brought to the Imperium, but shame awaits those who fail in such confrontations.

**When:** Your Shooting phase or the Fight phase.

**Target:** One Imperial Knights model from your army that has not been selected to shoot or fight this phase, and one enemy Monster or Vehicle unit.

**Effect:** Until the end of the phase, each time your model makes an attack that targets that enemy unit, add 1 to the Wound roll. If your model destroys that enemy unit this phase, you gain 1CP; but if your model does not destroy that enemy unit this phase, you cannot use this Stratagem again for the rest of the battle.

### Valiant Last Stand

**Noble Lance – Epic Deed Stratagem**

Badly wounded, their Knight’s generator on the verge of overload, still the Noble fights on, drawing upon their reserves of chivalric heroism to sell their life as dearly as they can.

**When:** Fight phase.

**Target:** One Imperial Knights model from your army that was just destroyed and that is eligible to fight but has not been selected to fight this phase. You can use this Stratagem on that model even though it was just destroyed.

**Effect:** Before rolling to see if this model deals any mortal wounds as a result of its Deadly Demise ability, it can fight; when doing so, it is assumed to have 1 wound remaining, or all its wounds remaining if your army is Honoured. After it has finished resolving its attacks, resolve its Deadly Demise ability as normal.

**Restrictions:** You cannot target Sir Hekhtur with this Stratagem.

Sir Hekhtur is equipped with: Hekhtur’s pistol; close combat weapon.

ABILITIES

CORE: Lone Operative

USING SIR HEKHTUR

When your Canis Rex model is destroyed, Sir Hekhtur is treated as a model disembarking from a destroyed Transport – set him up within 3” of your Canis Rex model before it is removed. Sir Hekhtur then uses the profile, wargear, abilities and keywords shown on this side of the card, but cannot be selected as the target of any of your Stratagems other than Core Stratagems. Your Canis Rex unit is not considered to be destroyed until Sir Hekhtur is also destroyed.

KEYWORDS: Infantry, Character, Epic Hero, Imperium, Sir Hekhtur

FACTION KEYWORDS: Imperial Knights
Where Chaos Knights tread, the skies grow unnaturally dark and the dread of the warp permeates the battlefield. None are immune to its shadowy touch, for those it does not paralyse with fear and despair are wracked with hallucinations and driven mad.

HARBINGERS OF DREAD
If your Army Faction is Chaos Knights, each model from your army with this ability gains a bonus depending on which Dread abilities are active for your army (see below). Once a Dread ability is active for your army, that ability applies until the end of the battle.

BATTLE ROUND 1 ONWARDS
From the first battle round onwards, the Despair ability is active for your army:

DESPAIR (AURA)
While an enemy unit is within 12” of this model, each time that enemy unit takes a Battle-shock or Leadership test, subtract 1 from that test.

BATTLE ROUND 3 ONWARDS
From the third battle round onwards, the Doom and Darkness ability is active for your army:

DOOM AND DARKNESS
- Each time this model makes an attack, if the target is Battle-shocked, add 1 to the Wound roll.
- Each time an attack targets this model, if the attacking model’s unit is Battle-shocked, subtract 1 from the Hit roll.

SUPER-HEAVY WALKER
Each time a model with this ability makes a Normal, Advance or Fall Back move, it can move over models (excluding Titanic models) and terrain features that are 4” or less in height as if they were not there.

DREDBLADES
Dreadblades often wander the galaxy, carving a path of destruction and slaughtering foes alongside other forces of Chaos as and when they will.

If every model in your army has the Chaos keyword, you can include either 1 Titanic Chaos Knights model or up to 3 War Dog models in your army, even if they do not have the Faction keyword you selected in the Select Army Faction step. None of these models can be your Warlord, and they cannot be given Enhancements.
If your Army Faction is **Chaos Knights**, you can use this Traitoris Lance Detachment rule.

### FORGED IN TERROR (Aura)

Chaos Knights are servants of shadow and terror; wherever they stride, fear and madness spread.

In the Battle-shock step of your opponent’s Command phase, if an enemy unit that is below its Starting Strength is within 12” of a **Chaos Knights** model from your army, that enemy unit must take a Battle-shock test. For the purposes of this ability, if a unit has a Starting Strength of 1, it is considered to be below its Starting Strength while it has lost one or more wounds.

**Designer’s Note:** This means that all enemy units within range of this Aura ability that have lost one or more models must take a Battle-shock test in your opponent’s Command phase, not just those that are Below Half-strength.
If you are using the Traitoris Lance Detachment rule, you can use these Traitoris Lance Enhancements.

**LORD OF DREAD**

This tyrannical Knight is the epitome of dread power, instilling as much fear in their minions as they do over the enemy, ensuring unwavering obedience.

*Chaos Knights* model only. At the start of the Fight phase, you can select one enemy unit within Engagement Range of the bearer; that enemy unit must take a Battle-shock test.

**AURA OF TERROR**

This towering Knight is wreathed in tendrils of warp energy that caress the minds of any enemy who draws near, driving those touched into a state of abject fear. Wherever this Knight treads, this aura of terror permeates and corrupts the land until it can be cleansed.

*Chaos Knights* model only. If you control an objective marker at the end of your Command phase, and the bearer is within range of that objective marker, that objective marker is said to be Tainted and remains under your control even if you have no models within range of it, until your opponent controls it at the start or end of any turn. In addition, while an objective marker is Tainted and under your control and the Despair Dread ability is active for your army, that objective marker has the Despair Dread ability as if it was a *Chaos Knights* model from your army (so subtract 1 from Battle-shock and Leadership tests taken for enemy units within 12" of it).

**THE TRAITOR’S MARK**

The dark deeds and bloodstained heraldry of this Chaos Knight are whispered far and wide. Rumours spread that to confront it is to face a painful death. Each blazon borne upon its hull proclaims the unholy atrocities committed by the bearer, and even to look upon these loathsome sigils is to be gripped by unnatural terror and beset by swarming nightmares.

*Chaos Knights* model only. The Doom and Darkness ability is active for the bearer from the first battle round onwards, instead of from the third.

**PANOPLY OF THE CURSED KNIGHTS**

Borne within an unmarked casket by an order of silent Idolators, this collection of tattered pennants, chain-strung charms and armour scraps represent the last remains of the Knight Carnivus Grymm. It is said that festooning one’s Knight suit with these charms instils the legendary fortitude of that doomed war engine. Yet it is whispered that doing so also invites the attentions of the same dread curse that eventually led to Carnivus Grymm’s ghastly end.

*Chaos Knights* model only. Each time an attack is made against the bearer, subtract 1 from the Armour Penetration characteristic of that attack.
CHAOS KNIGHTS – TRAITORIS LANCE
STRATAGEMS

If you are using the Traitoris Lance Detachment rule, you can use these Traitoris Lance Stratagems.

DREAD HOUNDS

TRAITORIS LANCE – BATTLE TACTIC STRATAGEM

War Dog pilots encircle their terrified victims then attack in a ferocious mass.

WHEN: The start of your Shooting phase or the start of the Fight phase.

TARGET: Two or more War Dog units from your army and one enemy unit that is an eligible target for each of those selected War Dog units.

EFFECT: Until the end of the phase, the selected War Dog units can only target that enemy unit, but all weapons equipped by those War Dog models gain the [SUSTAINED HITS 1] ability. In addition, if that enemy unit is Battle-shocked, until the end of the phase, each time a selected War Dog model makes an attack against that enemy unit, an unmodified Hit roll of 5+ scores a Critical Hit.

PTERRORSHADES

TRAITORIS LANCE – WARGEAR STRATAGEM

Shrieking with ghoulish hunger, daemonic entities descend in a tatterwinged whirlwind to rend apart the souls of those enemies who show even a moment’s fear. The soul-raptors tear apart their victims’ animus and, as they feed, this life force is channelled to regenerate the battle damage or heal the pilot of the Knight in which these creatures roost.

WHEN: Any phase, just after an enemy unit fails a Battle-shock test.

TARGET: One Chaos Knights unit from your army that is within 12” of that enemy unit.

EFFECT: Roll six D6. For each 4+, that enemy unit suffers 1 mortal wound and this model regains up to 1 lost wound.

DISDAIN FOR THE WEAK

TRAITORIS LANCE – BATTLE TACTIC STRATAGEM

Chaos Knight pilots refuse to yield while foes remain to be slain, disdainfully ignoring those who succumb to fear.

WHEN: Fight phase, just after an enemy unit has selected its targets.

TARGET: One Chaos Knights unit from your army that was selected as the target of one or more of the attacking unit’s attacks.

EFFECT: Until the end of the phase, your model has the Feel No Pain 6+ ability, and the Feel No Pain 5+ ability against attacks made by Battle-shocked models.
If you are using the Traitoris Lance Detachment rule, you can use these Traitoris Lance Stratagems.

**A LONG LEASH**

**TRAITORIS LANCE – STRATEGIC PLOY STRATAGEM**

The War Dogs of the Chaos Knights are more terrified of their lords than they are the enemy, and they heed their masters well, for they know the price of disobedience or disloyalty.

**WHEN:** Your Command phase.

**TARGET:** One Abhorrent model from your army and up to three War Dog models from your army.

**EFFECT:** Until the start of your next Command phase, those War Dog models count as being within range of any Aura abilities that Abhorrent model has.

**DIABOLIC BULWARK**

**TRAITORIS LANCE – WARGEAR STRATAGEM**

Ectoplasmic blood surges hot through glowing conduits as the Chaos Knight feeds power to its shield emitters.

**WHEN:** Your opponent’s Shooting phase, just after an enemy unit has selected its targets.

**TARGET:** One Chaos Knights unit from your army that was selected as the target of one or more of the attacking unit’s attacks.

**EFFECT:** Until the end of the phase, that Chaos Knights model has a 4+ invulnerable save against ranged attacks.

**KNIGHTS OF SHADE**

**TRAITORIS LANCE – EPIC DEED STRATAGEM**

Like dark phantoms, some Chaos Knights can move through solid walls without hindrance.
