

DEATH GUARD

ARMY RULE

The Death Guard are carriers of countless infections and contagions, each a gift from Nurgle. Whenever they march to war, they contaminate all around them, overwhelming their victims' immune systems and undoing metallic bonds, alien psychic materials and all manner of other components, rendering even armoured vehicles vulnerable.

NURGLE'S GIFT (AURA)

If your Army Faction is **DEATH GUARD**, while an enemy unit is within Contagion Range of this unit, subtract 1 from the Toughness characteristic of models in that enemy unit. Contagion Range changes over the course of the battle, as shown below.

CONTAGION RANGE

1st Battle Round: Contagion Range = 3"

2nd Battle Round: Contagion Range = 6"

3rd Battle Round Onwards: Contagion Range = 9"

DEATH GUARD – PLAGUE COMPANY

DETACHMENT RULE

If your Army Faction is **DEATH GUARD**, you can use this Plague Company Detachment rule.

SPREAD THE SICKNESS

To the Death Guard, spreading Nurgle's gifts goes beyond the beings they fight – even the landscapes they tread upon they seek to corrupt, cultivating Nurgle's garden as widely as possible.

If you control an objective marker at the end of your Command phase and a **DEATH GUARD** unit from your army is within range of that objective marker, that objective marker is said to be Infected and remains under your control even if you have no models within range of it, until your opponent controls it at the start or end of any turn. In addition, while an objective marker is Infected and under your control, it has the Nurgle's Gift ability as if it were a unit from your army (so enemy units within Contagion Range of it will have their Toughness characteristic modified).

DEATH GUARD – PLAGUE COMPANY

STRATAGEMS

If you are using the Plague Company Detachment rule, you can use these Plague Company Stratagems.

FERRIC BLIGHT

PLAGUE COMPANY – BATTLE TACTIC STRATAGEM

The spreading rust of the Ferric Blight can reduce armour of all kinds to nothing.

WHEN: Your Shooting phase or the Fight phase.

TARGET: One **DEATH GUARD** unit from your army that has not been selected to shoot or fight this phase.

EFFECT: Until the end of the phase, each time a model in your unit makes an attack, improve the Armour Penetration characteristic of that attack by 1. If the target of that attack is within Contagion Range of an Infected objective marker you control and a Critical Wound is scored for that attack, improve the Armour Penetration characteristic of that attack by 2 instead.

1CP

SANGUOUS FLUX

PLAGUE COMPANY – BATTLE TACTIC STRATAGEM

Bleeding sores erupt all over enemies afflicted by the Sanguous Flux, the wounds never clotting or healing.

WHEN: Fight phase.

TARGET: One **DEATH GUARD** unit from your army that has not been selected to fight this phase.

EFFECT: Until the end of the phase, weapons equipped by models in your unit have the **[SUSTAINED HITS 1]** ability. While your unit is within range of an Infected objective marker you control, those weapons have the **[SUSTAINED HITS 2]** ability instead.

DISGUSTINGLY RESILIENT

PLAGUE COMPANY – BATTLE TACTIC STRATAGEM

Those favoured by Nurgle are inured to pain, their rotting bodies shrugging off all but the most traumatic damage with ease.

WHEN: Fight phase, just after an enemy unit has selected its targets.

TARGET: One **DEATH GUARD** unit from your army that was selected as the target of one or more of that enemy unit's attacks.

EFFECT: Until the end of the phase, each time an attack is allocated to a model in your unit, subtract 1 from the Damage characteristic of that attack.

2CP

GIFTS OF DECAY

PLAGUE COMPANY – EPIC DEED STRATAGEM

Nurgle is a generous god, and through worship and devotion his followers can gain mighty rewards as they spread sickness in his name.

WHEN: Your Command phase.

TARGET: One **DEATH GUARD** model from your army.

EFFECT: Your model regains up to D3 lost wounds. If your model's unit is within Contagion Range of an Infected objective marker you control, your model regains up to 3 lost wounds instead.

1CP

DEATH GUARD – PLAGUE COMPANY

STRATAGEMS

If you are using the Plague Company Detachment rule, you can use these Plague Company Stratagems.

1CP

BOILBLIGHT

PLAGUE COMPANY – STRATEGIC PLOY STRATAGEM

The strange lumps that form on victims of Boilblight – also known as Nurgle's Fruit, Lumpen Splatter or the Crawling Pustulence – are easy to spot at a distance for the Death Guard.

WHEN: Your Shooting phase.

TARGET: One **DEATH GUARD** unit from your army, and one enemy unit within Contagion Range of that unit.

EFFECT: Until the end of the phase, each time a weapon equipped by a **DEATH GUARD** model from your army targets that enemy unit, that weapon has the **[HEAVY]** and **[IGNORES COVER]** abilities.

1CP

CLOUD OF FLIES

PLAGUE COMPANY – STRATEGIC PLOY STRATAGEM

With a thrumming roar, a thick cloud of daemon flies whirls around the Death Guard and obscures them from the enemy's sight.

WHEN: Your opponent's Shooting phase, just after an enemy unit has selected its targets.

TARGET: One **DEATH GUARD** unit from your army that was selected as the target of one or more of that enemy unit's attacks.

EFFECT: Until the end of the phase, your unit has the Stealth ability.

DEATH GUARD – PLAGUE COMPANY

ENHANCEMENTS

If you are using the Plague Company Detachment rule, you can use these Plague Company Enhancements.

LIVING PLAGUE

Saturated as he is with Nurgle's contagious blessings, merely to stand before this warlord is to be assailed by an oppressive aura of plague.

DEATH GUARD model only. Add 3" to the range of the bearer's Aura abilities (including Nurgle's Gift).

THE DRONING (AURA)

This warrior is surrounded by a cloud of dreaded plague flies that harass the Death Guard's enemies and feed on their sanity.

DEATH GUARD model only. While an enemy unit is within Contagion Range of the bearer, each time that unit fails a Battle-shock test, roll one D6: on a 2-5, that unit suffers 1 mortal wound; on a 6, that unit suffers D3 mortal wounds.

DEADLY PATHOGEN

When this pathogen finds a victim – whether organic or machine – it rapidly replicates, causing horrific damage before burning out.

DEATH GUARD model only. Add 1 to the Strength and Attacks characteristics of the bearer's melee weapons. While the bearer is within range of an Infected objective marker you control, add 2 to the Strength and Attacks characteristics of the bearer's melee weapons instead.

SHAMBLEROT

The strains of the zombie virus carried by the Death Guard slowly but surely break mortals around them, sapping their strength and dexterity before consuming them utterly.

DEATH GUARD model only. Each time the bearer's unit is selected as a target of an enemy unit's charge, until the end of the phase, subtract 2 from Charge rolls made for that enemy unit.
